## Welcome to Ansell Lighting

### A global leader in lighting innovation

Ansell Lighting designs and manufactures premium solutions for commercial, industrial, retail, and architectural applications.

With over 20 years of industry expertise, we are dedicated to delivering high quality, innovative products supported by exceptional customer service.

We operate in over 20 countries and proudly received the **King's Award for Enterprise**, a testament to our commitment to cutting-edge design and innovation.

**Contact Support** whenever you need it. Our technical team is available by phone, through WhatsApp and email, or our website can assist. We offer a handy LED strip calculator, detailed datasheets and product comparisons ensuring you have all the tools and information at your fingertips.

**For more information visit our website**

# Designed to deliver

**Design**

**Testing**

**Manufacture**

**Assembly**

**Renowned for reliability, next-day delivery, and cutting-edge technology** Ansell Lighting combines technical expertise with innovative design to provide tailored solutions for both interior and exterior applications.

Our products are designed with electricians in mind, prioritising ease and speed of installation, and are built on the latest technology to ensure maximum efficiency and performance.

As an LIAQA-certified company, we emphasise functional simplicity, making us the go-to partner for lighting projects. Supported by the strength of our parent company, Endo Lighting, we continue to grow and lead the industry.

## Lighting Design Service

We offer a seamless lighting design journey with our in-house service.

Our LIA-qualified team works closely with you to understand your needs, delivering tailored solutions with detailed designs, product recommendations, and cost estimates.

From concept to 3D rendering, you will be allocated your own dedicated Lighting Design Engineer to guide you through every stage of the process.

We ensure transparent communication, professional installation, and dedicated post-installation support. Using cutting-edge tools like RELUX and DIALux evo.

## On-site production

Our state-of-the-art facilities produce up to 500 bespoke luminaires daily, tailored to meet your project needs.

**Contact: [saleswarrington@anselluk.com](mailto:saleswarrington@anselluk.com)** to discuss your requirements, options and delivery times.

## A Greener Future

**Sustainability is at the heart of everything we do.**

Since pioneering low-energy LED lighting in 2004, we have been committed to reducing our environmental impact through innovative practices and partnerships.

Our UK assembly lines aim to be waste-neutral, using fully recyclable packaging, eliminating single-use plastics, and recycling spare parts like drivers and empty bodies.

We collaborate with overseas partners to promote sustainable operations and comply with environmental laws.

As a Carbon Measured Organisation, we actively measure, reduce, and certify our emissions in partnership with Natural Carbon Solutions.

Our Green Team drives innovation, challenging us to reduce waste and adopt greener solutions, such as transitioning to fully recyclable packaging that has eliminated five million single-use plastic bags annually. We've also reduced our fleet's carbon emissions by 34.3%, introduced hybrid and electric vehicles, installed on-site charging points, optimised energy with **OCTO smart lighting systems**, and minimised waste across our sites.

These efforts reflect our dedication to creating a more sustainable future.

and we are **accredited by**

ACCREDITED

**Awesome Ansell Installers** – Tag us in your installation images and projects using **#awesomeansell** for a chance to win fantastic prizes every week, month and year. Your work could also be featured on our website’s inspiration page. Join the community, share your success and let’s celebrate the brilliance of your lighting installations together.

**Experience Ansell Lighting firsthand** by visiting one of our showrooms, open to wholesale customers, contractors and architects. Explore our innovative luminaires, gain real insight into our products, and discover more about what makes us a trusted industry leader. Our showrooms are located in **Warrington, Belfast, Dublin** and **Madrid**. Book your appointment today by **emailing: [marketing@anselluk.com](mailto:marketing@anselluk.com)** – we’d love to welcome you!

### **On-Site Warranty – Up to 3 Years**

Enjoy peace of mind with our On-Site Warranty. In the event of a covered fault or malfunction, we provide on-site repair or replacement at no extra cost. An Ansell-approved contractor will visit your premises to service or replace the product, ensuring minimal disruption. Alternatively, you can use your own electrician, and we’ll cover the cost directly (subject to approval and terms).

**Registration is quick and can be completed within three months of purchase.**

**Simply scan the QR code or visit [ansell-lighting.com](http://ansell-lighting.com) to register**

**CPD** Elevate your expertise with Ansell Lighting’s accredited CPD training sessions. Designed for lighting professionals, our sessions cover key topics including legislation and smart lighting, providing valuable insights and knowledge to enhance your skills. Interested in advancing your career with industry-recognized training?

**Email us at [marketing@anselluk.com](mailto:marketing@anselluk.com) today to find out more!**

# The Complete Connected Solution

Introducing OCTO, the next generation of smart lighting solutions designed to revolutionise the way you experience light.

Combining cutting-edge technology with seamless control, OCTO transforms the efficiency and ambiance of both commercial and residential spaces.

With advanced protocols, data-driven insights, and unparalleled service, we deliver tailored connectivity solutions that meet your unique needs.

Our experts are with you every step of the way, ensuring your project exceeds expectations, every time. OCTO isn't just a brand - it's a new standard in connected living, optimising lighting for any environment and elevating your experience to new heights.

Read on to find out how OCTO can revolutionise your commercial and residential lighting projects...

## Discover More About OCTO Insight

For more information on how **OCTO Insight** can enhance your commercial and residential projects, contact our sales team today.

## Commercial

Let OCTO transform your workspace with intelligent, energy-efficient lighting systems that reduce operational costs, enhance safety and optimises productivity.

OCTO

Powered by  
**CASAMBI**

## Residential

Elevate each area of your home with personalised, intuitive lighting that adapts to your lifestyle, creating the perfect ambiance while offering convenience, security and energy savings.

# Transform your spaces with OCTO

## The Ultimate Connected System

Step into a world of intelligent illumination with OCTO. Encounter uninterrupted brilliance through predictive maintenance, achieve energy efficiency and ensure safety with real-time emergency reporting. Personalise your ambiance, prioritise wellbeing, enhance security, and enjoy accessibility for all. OCTO is your gateway to a brighter, smarter future.

Check out some of the benefits...

### Predictive Maintenance

Help alleviate the increasing costs associated with lighting maintenance.

### Energy Saving

Unlock the insights from raw energy usage data and transform it into actionable insight.

### Emergency Reporting

Ensure compliance with legal safety obligations by guaranteeing your emergency lights are fully operational and always in top condition.

### Automation

Deliver versatile solutions applicable across various settings, allowing users to select the most suitable configuration for their needs, blending functionality with ease of use.

## Health and Welfare

Luminaires, beyond their primary function of providing illumination, possess the capacity to contribute significantly to holistic well-being, encompassing aspects such as mood enhancement, circadian rhythm regulation, and even physiological effects on individuals within a space.

## Security and Safety

Illuminate exit routes and employ monitoring systems to enhance security and safety measures.

## Accessible Anywhere

Remote access for controlling and monitoring lighting is crucial for efficient management, offering convenience and flexibility in overseeing lighting systems from anywhere at any time.

## Multi User

Facilitate easy and efficient management of lighting by multiple users simultaneously.

## Data

Unlock new possibilities with OCTO's lighting solutions, where every light not only illuminates but also gathers valuable data to enhance efficiency and drive smarter decisions.

## Support

With OCTO, you're never alone - our dedicated support team is with you at every step, ensuring your project is seamlessly executed from concept to completion. What's more, we offer regular CPD sessions covering all of our smart offering.

## Residential Solution

### The Perfect Home Smart Lighting Solution...

Imagine a home where your lighting adapts to your lifestyle, enhancing every moment with perfect ambiance, effortless control and intelligent energy use. OCTO transforms your living space into a sanctuary of comfort, security, and creativity, all while seamlessly integrating with your daily routine.

From setting the mood with a single touch to saving energy without sacrificing style, these advanced systems bring a new level of luxury and convenience to your home.

Step into the future of living and discover how our OCTO smart lighting can elevate your home to new heights of comfort and sophistication

#### Voice Control

Complete control over your lighting hands free with your smart speaker.

#### Schedules

Customise your lighting experience effortlessly with scheduled automation. Tailor your lights to fit your lifestyle, enhancing convenience and energy efficiency for a smarter, more comfortable home.

## Integrations

Experience seamless integration with other smart home devices for a harmonious living environment. OCTO effortlessly synchronises with various smart technologies, ensuring a cohesive and interconnected home experience.

## Circadian Rhythm

Enhance your wellbeing with circadian rhythm support. Mimic the natural light of the sun for optimal health and sleep patterns, promoting a balanced lifestyle and rejuvenating rest.

## Preset Light Modes

With 8 different preset light modes to choose from quickly selecting the type of light depending on your mood or what you're doing has never been easier.

## Dynamic Light Modes

Elevate your ambiance with dynamic light modes, from soothing pulsating hues to vibrant colours. Explore the full spectrum of white light for tailored atmospheres, enhancing comfort and style in any space.

## 64,000 Shades of White

Experience versatility with a range of white light options. From warm to cool tones, find the perfect illumination for any activity or ambiance, enhancing comfort and functionality throughout your space.

## 16 Million Colours

With OCTO, you're never alone - our dedicated support team is with you at every step, ensuring your project is seamlessly executed from concept to completion. What's more, we offer regular CPD sessions covering all of our smart offering.

# OCTO Venom RGBW Flexible Strip Kit Connected by WiZ

- RGBTW smart flexible LED strip kit suitable for residential and small-scale commercial applications
- Bluetooth and WiFi enabled smart strip; connects directly to your existing WiFi
- Commissioned via WiZ app
- Voice activated compatibility; offers hands-free controls
- RGB and Tunable white for total colour and comfort
- Fully dimmable from 10% to 100%
- 2m starter kit with additional 1m extender kit options available (up to 10m maximum total LED strip length)
- Cutting points every 200mm (only if required)
- Group, scene, holiday and timer settings achieved via WiZ app

## Fire Rated Downlight Connected by WiZ

- IP65 Dimmable LED WiZ enabled tunable white Fire Rated Downlight suitable for residential and commercial applications
- Connects directly to your WiFi network using Bluetooth technology to support seamless pairing
- Tunable between 2700K - 6500K via WiZ app and voice control offering a choice of 2 outputs, in one luminaire
- New innovative 2 part detachable connector design allows initial wiring and testing to be completed first, then simply plug the downlight back to the connector, ensuring a quick and simple installation
- Remote driver with loop-in, loop-out colour coded push fit piano terminals provide an easy and efficient installation
- Low profile design and remote driver allows installation into shallow ceiling voids
- Fully tested for 30, 60 and 90 minute ceiling types to meet Part B of Building Regulations
- Fully tested to meet Part C (moisture), Part E (acoustic) and Part L (energy) of Building Regulations
- Wide 60° beam angle for increased light distribution

### WiFi and Bluetooth

Enjoy seamless pairing using WiFi and Bluetooth hybrid technology to support connecting to your WiFi router

### Advanced Voice Control

Full voice control with smart speakers including Amazon Alexa and Hey Google and voice control with devices running Siri Shortcuts on iOS 12 and above.

### No Hub Needed

No Additional Hub or Bridge Needed. Connect directly to your existing network via your WiFi router or Internet access point.

## Anti-Glare Fire Rated Downlight Connected by WiZ

- IP65 Dimmable LED WiZ enabled tunable white Fire Rated
- Connects directly to your WiFi network using Bluetooth technology to support seamless pairing
- Anti-Glare Downlight suitable for residential and commercial applications
- Tunable between 2700K - 6500K via WiZ app and voice control
- Supplied with matt white bezel as standard.
- Anti-glare design to create visual comfort
- New innovative 2 part detachable connector design allows initial wiring and testing to be completed first, then simply plug the downlight back to the connector, ensuring a quick and simple installation
- Remote driver with 2x1.5mm<sup>2</sup> + CPC loop-in, loop-out colour coded push fit piano terminals provide an easy and efficient installation
- Low profile design and remote driver allow installation into shallow ceiling voids
- Fully tested to meet Part C (moisture), Part E (acoustic) and Part L (energy) of Building Regulations

## OCTO Smart PIR Sensor Connected by WiZ

- Internal WiFi enabled PIR sensor suitable for residential and small-scale commercial applications
- Compatible with all other OCTO Connected by WiZ devices
- Infrared PIR detector and photocell
- Detection range strength: 1) Strong detection zone i.e. person moving arm or walking towards PIR 2) Secondary detection zone i.e. person walking perpendicular to PIR
- 1 year battery (on assumption 50 actions per day, battery capacity 2800 mAh)
- Battery powered using 2 x AA batteries (not supplied)
- Please note the WiZ app does not support light level monitoring on battery operated sensors, due to heavy battery drain. However other methods of control can be achieved through the Alexa App
- Motion sensor must be within 15m of light fitting to operate

Connected by

**OCTO™**

Powered by  
**CASAMBI**

**Commercial Solution**

## **The Ultimate Professional Control System Perfect for Commercial Solutions...**

OCTO's commercial solutions are designed to transform your business environment with smart lighting that enhances efficiency, reduces energy costs and elevates the ambiance of any space.

Our advanced **OCTO Powered by Casambi** system offer seamless control, customisable to your specific needs, while providing valuable insights through data analytics. From initial assessment to final installation, OCTO's expert team ensures a smooth, tailored experience, delivering lighting solutions that not only meet, but exceed your commercial objectives.

**Read on to find out how OCTO can revolutionise your commercial lighting...**

## Circadian Rhythm

Lighting supports natural circadian rhythms by adjusting colour temperature throughout the day. Cool light boosts alertness in the morning, while warm tones promote relaxation in the evening, enhancing focus, creativity, and well-being.

## Tunable White & Dimming

Flexible lighting control with adjustable colour temperatures from 2700K to 6500K and smooth 0-100% dimming via the Casambi app. Ideal for commercial spaces, it enhances comfort, productivity, and ambience with effortless customisation.

## Smart Switches

Wireless smart switches, powered by kinetic energy, require no wiring or batteries. With Bluetooth connectivity, preset scenes, and dimming options, they provide simple, modern lighting control for any space.

## Daylight Harvesting

Smart PIR sensors adjust artificial lighting based on natural light levels, optimising brightness while reducing energy consumption. Automated sunrise/sunset prediction via the Casambi app ensures seamless adaptation to changing light conditions.

## Presence and Absence Detection

Smart sensors optimise energy use by detecting movement. Presence detection switches lights on when a person enters, while absence detection ensures they turn off when they leave, enhancing efficiency and convenience.

## OCTO Indoor Controller Powered by Casambi

- Bluetooth enabled internal smart controller for use with the OCTO Casambi eco-system suitable for commercial and industrial applications
  - Push-fit loop-in, loop-out terminals for ease and speed of installation
  - Screw-less design
  - Compatible with all other bluetooth OCTO Casambi devices as part of the OCTO Casambi ecosystem
  - Intuitive fast operation from a smart lighting App
  - Future proofed free software and firmware updates
  - Can be used to control a group, sub groups or individual luminaires
  - Settings easily commissioned by a smart device
  - App commissioning includes full control, dimming, scene setting and pre-set timer
  - Bluetooth wireless mesh ensures reliable and fast operation.
- Range between devices: 15m internal, 30m external\*\*

**\*\* NB The indoor and outdoor OCTO Controllers are designed to operate Triac dimmable LED luminaires and LED light sources, however consideration must be given to PFC (Power Factor Correction) which can affect the final loading. Please refer to instructions for further details.**

# OCTO Outdoor Controller

## Powered by Casambi

- Bluetooth enabled internal outdoor smart controller for use with OCTO Casambi eco-system and suitable for residential and commercial applications
- Control outdoor lighting from smart device
- Heavy duty screw connections suitable for SWA / outdoor cable types
- Compatible with all other bluetooth OCTO Casambi devices as part of the OCTO Casambi ecosystem
- Detachable connector block to aid connection of stronger cable types
- Waterproof with IP66 rating
- Robust polycarbonate casings for outdoor use. UV stabilised
- Intuitive fast operation from a smart app
- Can be used to control a group, sub groups or individual luminaires
- App commissioning includes full control, dimming, scene setting and pre-set timer
- Bluetooth wireless mesh ensures reliable and fast operation.  
Range between devices: 15m internal, 30m external\*\*

## OCTO Indoor Wireless Architectural Smart Switch Powered by Casambi

- Bluetooth enabled internal smart switch for use with OCTO Casambi eco-system and suitable for residential and commercial applications
- Double rocker wireless wall switch
- High grade technopolymer construction available in 3 finishes:- white, metallic and black
- Electro-dynamic energy generator, maintenance free
- Compatible with all other bluetooth OCTO Casambi devices as part of the OCTO Casambi ecosystem
- Range - within one room up to 10 metres line of sight
- Double-sided mounting film enclosed screwing onto a flat surface
- Double rocker with medial position, pressed/released

OCTO

## OCTO Wireless Push to Make Switch Interface Powered by Casambi

- Bluetooth enabled smart 4 channel push to make switch interface
- Unit retrofits into existing push switch, making it smart enabled
- Compatible with all other bluetooth OCTO Casambi devices as part of the OCTO Casambi ecosystem
- Slim 15mm profile suitable for installation into 35mm recessed pattress
- Pre-wired ensuring a fast and easy installation into pre-existing wall switch
- Compact housing allows installation into pre-existing wall box so no additional work is required
- 3V lithium battery operated negating the requirement for mains wiring
- Can be used to control a group, sub groups or individual luminaires on a 1-4 button push switch
- Settings easily commissioned by a smart device via the Casambi app

OCTO  
Embedded

Powered by  
**CASAMBI**

### Connection Diagram

Wires connected to the external push buttons. We suggest to keep the wires long enough, so battery replacement is possible without disconnecting the push buttons

### Battery Replacement

When battery indicator is showing a low level, a new battery will be needed. (Battery is available as spare part).

Remove the cover (1) from the box (2). Pull out the PCB (3) slowly until the battery (4) can be removed. Replace battery and assure it is locked before sliding the PCB back in and putting the lit cover on.

ACCESSORIES

The Prism Pro range delivers high-performance designed for precision and flexibility. Featuring CCT and wattage selectability, dimmable functionality, and IP65-rated durability\*, the Prism Pro range suit residential and commercial spaces alike. Choose from fixed, gimbal, anti-glare and mini models for seamless integration and superior illumination in any environment.

62mm

## Ultra Shallow Profile

Fits seamlessly into reduced-height ceiling voids.

65°

## Optimal Beam Angle

Delivers superior light output and uniformity.

## Insulation Coverable

Ensures continuous ceiling insulation coverage.

## Push-Fit Terminals

Quick and effortless wiring connection.

## Toolless Install

Clip-in terminal housing allows for fast initial wiring and testing, then simply reconnect the downlight for a quick, hassle-free setup.

## Dimmable as Standard

Seamless brightness control for adaptable lighting.

# Performance Downlights

Performance downlights are ideal for open areas and larger rooms such as living areas in a home, school or college communal areas as well as commercial premises, where the required lux levels need to be achieved using the fewest number of luminaries possible. Performance downlights produce a high level of light and can be used in areas where low glare and viewing comfort is not a requirement.

## Galaxy

Specification / Application

# Architectural Downlights

Architectural downlights are predominantly used in areas where glare control and viewing comfort is a high priority, such as in classrooms, in offices above workers desks and in retail applications. A more comfortable light can be achieved by using more glare control luminaries in a space to achieve a better quality and more comfortable light to work in.

## Unity Downlight and Wallwash

**Application Example**  
Large retail space

## Unity Square and Rectangular

**Application Example**

## Solid Timber

The Solid Timber joist is the traditional ceiling joist used and typically is only found in domestic dwellings already constructed. They are widely used within internal floor and separating constructions for both residential and commercial applications.

Please refer to the Structural Timber Association website to see which of our downlights are suitable for installation in REI30-compliant floor constructions.

### 30 minute construction

### 90 minute construction

450mm Joist Centres  
220mm x 63mm – 9mm OSB/3 'web'  
2 x 15mm Type F Fireline Plasterboard

## Metal Web / Open Web / Posi Joist

Metal Web or Posi Joist as it is sometimes called, is a new joist type used in the UK. Posi Joist combines the lightness of timber with the strength of the Posi Strut steel web allowing you to span far greater distances. This joist type can be used across a wide range of applications for both floor and roof in domestic, industrial and commercial applications.

### 30 minute construction

600mm Joist Centres  
PS9 (225mm x 0.9mm) + TR26 (47x72mm timber)  
15mm Type A Wallboard Plasterboard

### 60 minute construction

### Fire Rated Downlight

Fully fire tested for 30, 60, and 90-minute ceiling types (solid timber, I-joist, and metal web) to meet Part B of building regulations. A patented intumescent disc expands in high heat, slowing fire spread.

### Easy Installation

New innovative 2 part detachable connector design allows initial wiring and testing to be completed first, then simply plug the downlight back to the connector, ensuring a quick and simple installation

### Multi-wattage and CCT Selectable

CCT selectable between 2700K, 3000K, 4000K and 6000K and power selectable between 5W/7W; offering a choice of 2 outputs, in one luminaire for maximum versatility

## Fire Rated Ant-Glare Downlight

- 220-240V IP65 LED dimmable CCT fire rated architectural downlight suitable for residential and hospitality applications
- CCT selectable between 2700K, 3000K, 4000K and 6000K and power selectable; offering a choice of 2 outputs, in one luminaire
- Supplied with matt white bezel as standard. Chrome, satin chrome and matt black bezels sold separately
- Anti-glare design to create visual comfort
- New innovative 2 part detachable connector design allows initial wiring and testing to be completed first, then simply plug the downlight back to the connector, ensuring a quick and simple installation
- Remote driver with 2x1.5mm<sup>2</sup> + CPC loop-in, loop-out colour coded push fit piano terminals provide an easy and efficient installation
- Low profile design and remote driver allow installation into shallow ceiling voids
- Fully tested to meet Part C (moisture), Part E (acoustic) and Part L (energy) of Building Regulations

# Trimless Bezel Kit

- Trimless bezel kit designed for use with: APRIP/1/OCTOW/\*\* and APRIP/1
  - Steep baffle construction recesses the downlight providing a deep cut-off angle ensuring maximum glare control and visual comfort
  - Intelligent 2 part kit design is accessible from underneath the ceiling both during and after installation.  
The main body can be fixed to the ceiling whilst the internal 'push to release' main cone can be attached afterwards. This allows for quicker and easier installation and product maintenance
  - Suitable for residential and commercial applications, providing an architectural and modern appearance
  - Pre-drilled screw holes ensure a quick and easy installation
  - Wide design allows suitability for retro-fit applications replacing hole cut-outs up to 160mm
- Please note: This product is not supplied with Prism Pro downlight**

**A** Architectural Downlight

Without Prism Pro installed

CODE (ACCESSORIES)	DESCRIPTION	CODE (ACCESSORIES)	DESCRIPTION
APRIP/1/OCTOW/TW	Prism Pro WIZ Enabled FRD - TW	APRIP/1	Prism Pro Fire Rated Downlight
APRIP/1/OCTOW/RGBTW	Prism Pro WIZ Enabled FRD - RGBTW		

## TRIMLESS BEZEL KIT

### Versatile

The Trimless kit can be used with all Prism Pro LED Fire Rated Downlights. This includes our OCTO WIZ enabled downlight, 3000K, 4000K and colour temperature selectable models.

\* Not applicable for use with gimbal or non-Prism Pro LED models

### Simple Installation

The main body can be easily secured to the ceiling plasterboard, with the multiple holes allowing for flexible installation. The 'push to release' designed main cone ensures the Prism Pro can be accessed from underneath the ceiling both during and after installation.

### Reduced Glare Design

Steep baffle construction recesses the LED module and diffuser providing a deep cut-off angle ensuring maximum glare control and visual comfort.

## Ergo

- Compact polycarbonate LED downlight suitable for residential applications, including kitchens and soffit lighting.
- CCT selectable between 3000K, 4000K and 6500K
- Adjustable tiltable bezel, offering flexibility for use as a fixed downlight or gimbal
- IP44 rating as standard allows for a range of installation applications
- Low profile design with integral driver with loop-in
- Supplied pre-wired with 155mm of cable
- Triac dimmable as standard

Low profile design

# Complete... CCT Control

The Comfort LED Tunable White Downlight can achieve any specific colour temperature between 2700K and 6500K, ensuring suitability for a host of different application requirements. Tunable white LED fixtures allow you to adjust to a bluer, whiter light or a warmer, more amber light depending on the time of day. This can mimic patterns of natural daylight, stimulating the human circadian rhythm. Full tunability of colour temperature controlled via the Casambi app

95

## COMFORT EVO

ACOM1/1

### Multi CCT and Wattage

Dual power selectable with 3000/4000K colour temperature options

### Hawk Kit Compatible

# Primo Libero Three Circuit Linear

- Three circuit modern LED linear track light with integral driver suitable for commercial and retail applications
- Lightweight razor-thin aluminium profile design blends into the track system providing a minimal and sleek appearance
- Unique adjustable wing design can tilt up to 30° in either direction allowing more targeted area illumination, perfect for highlighting specific areas in retail applications. (Double versions have 2 adjustable wings and a central non-adjustable fixed line)
- Simple click and lock system for easy installation
- Versatile track adaptor design can slide to avoid track joints, ensuring a quick and easy install
- DALI dimmable as standard
- Compatible with all other Three Circuit Primo Track lighting products

# LED STRIP

---

The LED strip consists of 8 ranges including COB, dim-to-warm, eco, high efficiency, single cut, professional, ultra long and irregular bend. All are supplied with a self-adhesive back meaning no adhesive or fixings are required.

We have a solution for most industrial, commercial, hospitality, retail and residential settings. Our LED strip lights are available in RGBW, RGB, RGBTW and single colour options as well as IP20 and IP65 ratings.

## INTRODUCING

# PIXEL

The new **Pixel range** revolutionises lighting design with individually addressable LEDs, allowing for stunning dynamic effects, smooth animations, and customisable patterns. This cutting-edge technology unlocks endless creative possibilities, transforming static illumination into a vibrant, interactive lighting experience.

### Millions of Colours

RGBW for stunning, true-to-life colour blends.

### Addressable LEDs

Unlock mesmerising effects – colour chases, waves, rainbows and more.

### Versatile & Vibrant

Ideal for retail, architectural accents and residential wow-factor.

### Smart Ready

OCTO Compatible with WIZ and Casambi for seamless app and voice control.

### Custom Fit

Cut-to-size flexibility – tailored to your space and vision

### Profile Friendly

Designed to fit any profile with a **10mm** channel width.

# LED-CELL

STRIP

## OUR RANGES

Our LED-CELL range offers cutting-edge lighting solutions for every environment, from high-end commercial spaces to stylish residential interiors. Designed for precision, efficiency, and versatility, each strip is engineered to meet specific lighting needs. Explore our range and discover the perfect LED strip for your next project.

### Seamless, dot-free illumination with COB technology

Perfect for all hospitality, retail and residential applications where LED strips are visible, such as shopfitting and under-cabinet lighting and above reflective surfaces that bounce back a high amount of light. CRI90 ensures colours appear more true to life and enhances visual comfort.

### Warm-dimming technology for atmospheric lighting

As it dims, the colour temperature shifts warmer (from a bright 3000K to a cozy 1800K), mimicking the dimming behaviour of incandescent lighting; creating an ambient setting—ideal for bars, restaurants and hospitality spaces.

### Versatile LED strip for every residential application

A wide range of colours, pack sizes, outputs, and IP ratings with fast-fit connectors makes it perfect for residential applications in any room.

### High-output LED strip for primary lighting

Delivers more lumens than traditional light sources, such as LED panels and downlights, making it suitable as a main light source; shifting application from using LED strip for ambient lighting only.

### Precision cutting at every LED for a perfect fit

Designed for ultimate flexibility, K-Cell can be cut at every LED, ensuring seamless installation without dark spots—ideal for step edges, undershelf lighting, and discreet integrations into furniture and retail displays.

### High-precision lighting for retail and art displays

High LED chip density, high CRI and R9 values deliver premium illumination, making it the best choice for showcasing merchandise, artworks, and museum exhibits.

### Ultra-long LED runs powered from a single source

Ideal for large hospitality spaces like hotel receptions and bars; as well as those unique applications such as lift shaft illumination.

### Ultra-flexible LED strip that bends more than ever

Designed for extreme flexibility can twist and bend freely without connectors, making it perfect for curved surfaces, intricate designs, and seamless under-cabinet or signage lighting.

# CODING EXPLAINED

With a massive number of possibilities to choose from, our extensive range of LED-CELL strips cater to every application. The step-by-step guide below simplifies the selection process, helping you find the right strip for your needs. For specific details such as available wattages, sizes, IP ratings, and colour options, refer to the product-specific pages that follow

## CODE PART 1: STRIP MODEL/RANGE

Start by choosing the range based on your needs (e.g., COB C-CELL, ECO E-CELL, DIM-TO-WARM D-CELL). The code begins with the letter of the range, followed by /. For example **C/**

MODEL	
C	COB

## CODE PART 2: VOLTAGE

Most strips operate at 24V, except U-CELL (48V). Add the voltage to the code. For example **C/24**

VOLTAGE	
24	24V

## CODE PART 3: POWER/OUTPUT

Determine the wattage per meter for your strip. The number in the code corresponds to this wattage (e.g., 03 = 10W/m). For example **C/24/03**

POWER / OUTPUT	
03	10W/m

## CODE PART 4: IP RATING

Choose the appropriate IP rating for your environment (e.g., 20 = IP20). For example **C/24/03/20**

IP RATING	
20	IP20

## CODE PART 5: COLOUR

Specify the strip colour (e.g., 01 = White, 02 = RGB). For example **C/24/03/20/01**

COLOUR	
01	White

## CODE PART 6: COLOUR TEMPERATURE

Select the correlated colour temperature (CCT) as a two-digit code (e.g., 22 = 2200K). For example **C/24/03/20/01/22**

COLOUR TEMP	
22	2200K

## CODE PART 7: LENGTH OF STRIP

Choose the length based on your requirements (e.g., S01 = 5m, S02 = 10m). For example **C/24/03/20/01/22/S01**

LENGTH (M)	
S01	5m
S02	10m
S05	50m

# LED-CELL

## FEATURES

- Continuous phosphor, uniform dot-free output provides seamless light output for enhanced aesthetic appearance and allows product to be showcased as main lighting source, offering great installation versatility
- Single colour, RGB and tunable white flexible LED strip with self-adhesive back
- RGBW Pixel range offers the advantage of individually addressable LEDs enabling dynamic lighting effects and animations
- Fast fit plug and play connections remove the need for time consuming soldering of joints

### IP20 - Specification Applications

- Residential • Commercial • Hospitality • Retail

#### Examples:

- Kitchens • Under Cupboards • Shelving • Staircases

### IP67 - Specification Applications

- Residential • Commercial • Hospitality • Retail

#### Examples:

- Bathrooms • Decking Patios • Garden Feature Lighting

# SDCM

## DID YOU KNOW?

SDCM stands for 'standard deviation colour matching'. It measures the closeness of colour between LEDs on the printed circuit board (PCB). The lower the value, the closer the colour consistency will be.

# COPPER PCB

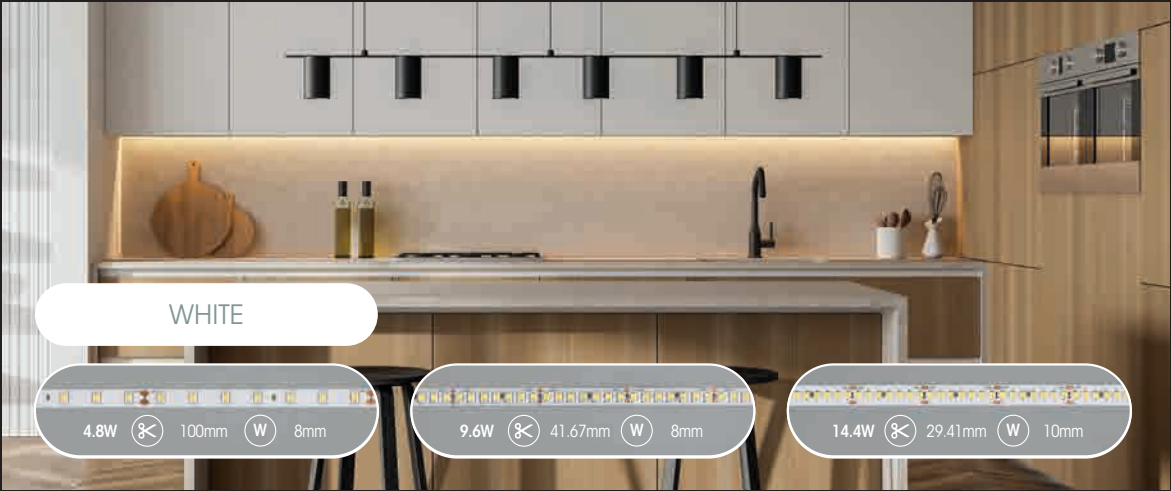

## DID YOU KNOW?

The **Copper PCB weight** refers to the thickness of copper used in the printed circuit board (PCB). The higher the weight, the better the performance will be on the LED strip.

# LED PITCH

## DID YOU KNOW?

The **LED pitch** refers to the distance between LED chips on the printed circuit board (PCB). The closer the distance, the more the light distribution will feel like a seamless light output.

DESCRIPTION	MODEL	VOLTAGE	OUTPUT	IP	COLOUR	CCT	LENGTH (M)	VERSION
Single CCT	E	24	01 / 03 / 04	20 / 65	01	30 / 40 / 65	S01 / S02 / S05	01
		24V	4.8W/m or 9.6W/m or 14.4W/m	IP20 or IP65	White	3000K or 4000K or 6500K	5m or 10m or 50m	1
RGB	E	24	01	20 / 65	03	00	S01 / S02 / S05	01
		24V	10W/m	IP20 or IP65	RGB	RGB	5m or 10m or 50m	1
RGBW	E	24	02	20 / 65	04	30 / 40 / 65	S01 / S02 / S05	01
		24V	16W/m	IP20 or IP65	RGBW	3000K or 4000K or 6500K	5m or 10m or 50m	1

Connected by  
**wiz**

Powered by  
**CASAMBI**

## FEATURES

- High LED density (196 LEDs per metre) provides a uniform output reducing spotting and providing a more seamless output of light compared to traditional LED strips
- Fast fit plug and play connections remove the need for time consuming soldering of joints

### IP20 - Specification Applications

Residential • Commercial • Hospitality • Retail

#### Examples:

- Kitchens • Under Cupboards • Shelving • Staircases

### IP65 - Specification Applications

• Residential • Commercial • Hospitality • Retail

#### Examples:

- Bathrooms • Decking • Patios • Garden Feature Lighting

## E-CELL – Single CCT

## E-CELL – RGB

## E-CELL – RGBW

### Technical Information

LEDs per Metre	Up to 196
LED Pitch	5.95mm
Cutting Unit	From 29.41mm
Input Voltage	24V
Lumens Delivered	525lm - 1650lm
Lm/W (lumen per watt)	Up to 115lm/W
CRI	90
SDCM	White 3, RGBW 5
Lifetime	L70 36,000h
Copper PCB	3oz

DESCRIPTION	MODEL	VOLTAGE	OUTPUT	IP	COLOUR	CCT	LENGTH (M)	VERSION
Single	H	24	01 / 03	20 / 65 / 67	01	22 / 27 / 30 / 40 / 65	S01 / S02 / S05	01
CCT		24V	9.6W/m or 19.2W/m	IP20 or IP65 or IP67	White	2200K or 2700K or 3000K or 4000K or 6500K	5m or 10m or 50m	1

Connected by  
**WIZ**

Powered by  
**CASAMBI**

## FEATURES

- Super high efficiency (up to 180lm/W delivered) provides great energy saving benefits and can replace existing lighting as main source of light output
- High LED density (Up to 240 LEDs per metre) provides a uniform output reducing spotting and providing a more seamless output of light compared to traditional LED strips, coupled with a high CRI this ensures suitability for use within professional display and high end retail environments

### IP20 - Specification Applications

- High End Residential
- Hospitality
- Retail

#### Examples:

- As a Main Light Source
- Ceiling troffers
- Feature lighting

### IP65 - Specification Applications

- High End Residential
- Hospitality
- Retail

#### Examples:

- Garden Feature Lighting
- Decking
- As a Main Outdoor Lighting Source

### Technical Information

LEDs per Metre	Up to 240
LED Pitch	5.56mm
Cutting Unit	From 33.33mm
Input Voltage	24V
Lumens Delivered	1440lm - 3500lm
Lm/W (lumen per watt)	Up to 180lm/W
CRI	90
SDCM	4
Lifetime	L70 50,000h
Copper PCB	3oz

## H-CELL - White

5W  5.55mm  5mm

14.4W  8.33mm  10mm

DESCRIPTION	MODEL	VOLTAGE	OUTPUT	IP	COLOUR	CCT	LENGTH (M)	VERSION
Single CCT	K	24	01 / 03	20 / 67	01	27 / 30 / 40 / 65	S01 / S02 / S05	01
		24V	5W/m or 14.4W/m	IP20 or IP67	White	2700K or 3000K or 4000K or 6500K	5m or 10m or 50m	1

Connected by  
**WIZ**

Powered by  
**CASAMBI**

## FEATURES

- Extremely small cutting points (every 5.55mm for 5W, every 8.33mm for 14W) ensures complete control over the exact run length of strip, for applications where accurate and precise light placement is paramount
- High CRI ensures suitability for use within professional display and high end retail environments
- Fast fit plug and play connections remove the need for time consuming soldering of joints

### IP20 - Specification Applications

- High End Residential • Retail • Hospitality

#### Examples:

- Bespoke Sized Shelving • Step Edge
- Alcoves • Display Units

### IP67 - Specification Applications

- High End Residential
- Retail & Commercial Applications • Hospitality

#### Examples:

- Under and above kitchen cupboards and kickboards.

#### Technical Information

LEDs per Metre	Up to 168
LED Pitch	5.56mm
Cutting Unit	From 5.55mm
Input Voltage	24V

Connected by  
**WIZ**

Powered by  
**CASAMBI**

## FEATURES

- Super high efficacy ensures peak performance, whilst also remaining economical and energy saving, helping to reduce overall energy consumption for all large scale installations
- Elite level LED chip technology with low SDCM produces the best quality white light

### IP20 - Specification Applications

- High End Residential • Retail Commercial • Hospitality

#### Examples:

- Restaurant and Bars • Kitchens • Hotel Receptions
- Meeting Rooms • Office Spaces

### IP65 - Specification Applications

- High End Residential • Retail Commercial • Hospitality

#### Examples:

- Outdoor Garden • Leisure Spaces • Feature Lighting

### Technical Information

LEDs per Metre	Up to 240

Connected by  
**WIZ**

Powered by  
**CASA MBI**

## FEATURES

- Low 48V input offers great reliability and safety for outdoor installations, as well as uniform brightness from the beginning to the end of each run
- Up to 50M can be run from a single power supply, great for external applications when suitable power supply locations are few and far between
- Available in IP20, IP65 and IP67 ratings, and in drums up to 50M ensuring suitability for any long length internal or external application

## IP20 - Specification Applications

- Residential
- Hospitality
- Retail & Commercial

### Examples:

- Large Interior Spaces
- Hallways/Corridors
- Feature lighting

## IP65 - Specification Applications

- Residential
- Hospitality
- Retail & Commercial

### Examples:

- Building Facades
- Outdoor Feature Lighting
- Large Garden

## Technical Information

LED DRIVERS

WHAT DO I NEED TO KNOW?

WHICH LED DRIVER DO I NEED FOR MY LED STRIP?

We have a comprehensive selection of drivers available for all applications and installations. These pages outline this selection and give information as to what driver is best suited for different requirements.

I DON'T NEED TO DIM MY LED STRIP

If you don't need to dim your LED strip the below selection of drivers will suit your needs, simply select whether you need 24V or 48V, the wattage required and the IP rating required.

24V INDOOR		24V OUTDOOR		48V INDOOR		48V OUTDOOR	
CODE	WATTAGE	CODE	WATTAGE	CODE	WATTAGE	CODE	WATTAGE
AD15/24V	15W	AD100/24V/IP67	100W	AD60/48V	60W	AD100/48V/IP67	100W
AD30/24V	30W	AD150/24V/IP67	150W	AD100/48V	100W	AD150/48V/IP67	150W

AD320/24V	320W						

I NEED TO DIM MY LED STRIP BETWEEN 0-100% DIMMING RANGE

If you have up to 100W of 24V LED strip for indoor use one of our triac dimmable drivers is perfect for your needs. Simply select from the options below. If you need a different wattage, 48V or higher IP rated drivers please reference the options on the following page.

24V INDOOR	
CODE	WATTAGE
ADDIM50/24V	50W
ADDIM75/24V	75W
ADDIM100/24V	100W
ADDIM200/24V	200W
ADDIM300/24V	300W

## I NEED TO MORE SPECIALISED DIMMING OPTIONS

If you have over 100W of LED strip you need to dim, or need 1-10V dimming, switch-dim or DALI dimmable, then our list of drivers below will suit any requirement.

### 24V INDOOR

## I WANT TO CONTROL AND DIM FROM MY PHONE AND SMART APP

Enhance your LED-CELL LED strip with a controller and a non-dimmable driver. Explore two innovative ecosystems for seamless control. Choose the ecosystem that aligns with your needs, effortlessly elevating your control and lighting ambience.

**OCTO Embedded Connected by WiZ** is the smart, user-friendly, and versatile ecosystem that transforms your LED-CELL strip lighting experience. Easily customise settings through the WiZ app and enjoy seamless integration with popular voice assistants and smart home platforms.

Elevate your lighting control with the advanced **OCTO Powered by Casambi** ecosystem. Offering advanced wireless control, enabling precise dimming, colour adjustments, and scene creation. Ideal for those seeking a sophisticated and customised lighting experience.

3

# WIRING MY LED STRIP

## WHAT DO I NEED TO KNOW?

6

### LED DRIVERS

We have a diverse selection of drivers available depending on your application, including dimmable and non-dimmable, IP20 and IP67 and from 15W up to 600W.

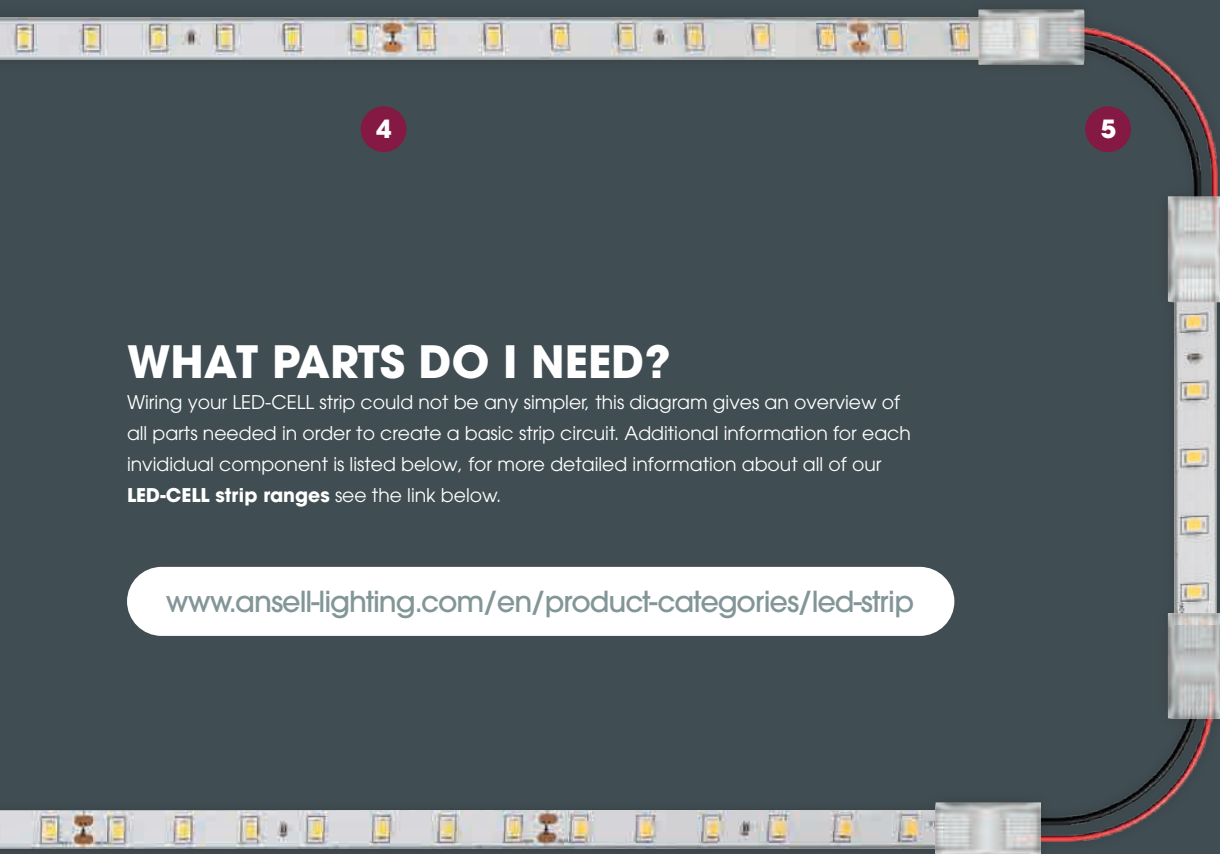

### CONTROLLERS

With a wide range of both Smart enabled and standard controllers we're sure to have whatever is required for your installation.

### PRE-WIRED CONNECTOR

Our pre-wired connectors ensure a quick and easy connection. Available in 8mm, 10mm and 12mm for all different colour strip models.

## WHAT PARTS DO I NEED?

Wiring your LED-CELL strip could not be any simpler, this diagram gives an overview of all parts needed in order to create a basic strip circuit. Additional information for each individual component is listed below, for more detailed information about all of our **LED-CELL strip ranges** see the link below.

[www.ansell-lighting.com/en/product-categories/led-strip](http://www.ansell-lighting.com/en/product-categories/led-strip)

### LED STRIP

With 8 different LED strip ranges available, we're sure to have you covered, whatever your specific needs may be.

### FLEXIBLE CONNECTOR

Our flexible connectors ensure a quick and easy connection. Available in 8mm, 10mm and 12mm for all different colour strip models.

### STRAIGHT CONNECTOR

Our straight connectors ensure a quick and easy connection. Available in 8mm, 10mm and 12mm for all different colour strip models.

# LED Drivers

## Constant Voltage Non-Dimmable

- Constant voltage non-dimmable drivers for 24V and 48V LED applications
- IP20 and IP67 variants for internal and external use

# REMOTES AND RECEIVERS

## WHAT DO I NEED TO KNOW?

### WHICH CONTROLLER OR RECEIVER DO I NEED FOR MY LED STRIP?

We have a comprehensive selection of controllers and receivers available for all applications and installations. This pages outlines the selection and gives information as to what is best suited for different requirements.

#### I ONLY NEED TO CONTROL ONE ZONE

If you only have a single zone of LED strip to control choosing a remote and receiver kit is the recommended option. Our offering includes kits for single colour, tunable white, RGB and C-CELL RGBW Pixel, all of which are listed below.

WHITE	
CODE	DESCRIPTION
A/KT/01/01/01	Single Colour 1 Zone

TUNABLE WHITE	
CODE	DESCRIPTION
A/KT/02/01/01	Tunable White 1 Zone

RGB OR RGBW	
CODE	DESCRIPTION
A/KT/03/01/01	RGB 1 Zone
A/KT/07/01/01	RGBW Pixel 1 Zone

#### I NEED TO CONTROL UP TO 4 ZONES

If you have 4 zones (up to 8 zones for RGB or RGBW and RGBTW) of LED strip to control choosing a separate remote and receiver is the recommended option. Additionally single zone controllers and receivers are available if RGBW or RGBTW strip needs to be controlled. Our offering includes remotes for single colour, tunable white, RGB and RGBW, also slimline remotes for RGBW and RGBTW all of which are listed below.

### REMOTES

WHITE	
CODE	DESCRIPTION
A/RC/01/04/01	Single Colour 4 Zones

TUNABLE WHITE	
CODE	DESCRIPTION
A/RC/02/04/01	Tunable White 4 Zones

RGBTW	
CODE	DESCRIPTION
A/RC/05/04/01	RGBTW 4 Zones
A/SR/05/01/01	Slim RGBTW 1 Zone
A/RC/05/08/01	RGBTW 8 Zones

RGB OR RGBW	
CODE	DESCRIPTION
A/RC/04/04/01	RGB RGBW 4 Zones
A/SR/04/01/01	Slim RGBW 1 Zone
A/RC/04/08/01	RGB RGBW 8 Zones

### RECEIVERS

MULTI *	
CODE	DESCRIPTION
A/CO/06/01	Receiver White, Tunable White, RGB and RGBW

RGB, RGBW OR RGBTW	
CODE	DESCRIPTION
A/CO/05/01	Receiver RGBTW
A/CO/07/01/01	Receiver Pixel RGB RGBW

SIGNAL SPLITTER	
CODE	DESCRIPTION
A/RC/02/04/01	Signal Splitter Pixel RGB RGBW

## Pre-Wired Connector

- Available in 8mm, 10mm and 12mm
- Available for Single Colour, Tunable White, RGB, RGBW and RGBTW
- Available pre-wired with either 150mm or 2000mm cable length

CODE	DESCRIPTION
A/CCS/20/02/08/01	COB White IP20 8mm - 150mm
A/CCS/20/04/10/01	COB RGB IP20 10mm - 150mm
A/CCS/20/03/10/01	COB IP20 10mm - 150mm

# ALUMINIUM PROFILES

## A COMPLETE GUIDE

To match the vast range of **LED-CELL** strip products, we have an equally impressive range of profile options available to cater for any specification.

### A PROFILE FOR EVERY SITUATION

The different profile options, including plaster in, suspended, cove, step edge, recessed, and surface, allow for versatile installation options and customised lighting designs. The opal diffuser is supplied with profiles as standard.

### FINISH AND COLOUR OPTIONS

All\* of our profiles and end caps come in 3 colour options, white, black and silver. The diffusers come in 3 finishes, clear, opal and translucent black.

\* Cove profile only available in silver finish with opal or clear diffuser.

# PROFILE CODING SYSTEM EXPLAINED

195

All of complete profile kit solutions come as standard with a 2 metre aluminium profile, end-caps, diffuser and mounting clips. To ensure you are ordering the correct kit, we have set out a guide to show you how our coding system works. The code diagram below outlines the steps needed to create the example code **A/AP/SM/01/20/SI/01**.

All of the individual parts which normally come as a part of a kit can also be ordered separately. So, if you need any spare parts, or want to **get creative with different colours and finishes**, we've got you covered. Contact our **Sales Team** for more information.

## 1 CODE PART 1: MOUNTING TYPE

Part 1 of the coding system is the mounting type. We offer several mounting types, these are; **SM** = Surface Mounting, **RE** = Recessed, **CO** = Cove, **PI** = Plaster in, **SU** = Suspended and **ST** = Step-edge. The example shown indicates a surface mounted profile has been selected.

A / AP / **1** M / 01 / 20 / SI / 01

## 2 CODE PART 2: SIZE

Part 2 of the coding system is the size of the profile. Some have several size options available, whereas some only have 1. All available codes and sizing is shown on the following pages.

A / AP / SM / **2** 01 / 20 / SI / 01

## 3 CODE PART 3: IP RATING

Part 3 of the coding system is the IP rating of the profile. Some have both IP20 and IP65 options available. The code for IP rating is the same as the number rating itself, for example the code for IP20 profile would be '20'. The example shown indicates a IP20 profile has been selected.

A / AP / SM / 01 / **3** 20 / SI / 01

## 4 CODE PART 4: FINISHES

Part 4 of the coding system is the finishes of the profile. All are available in white, black and silver, aside from cove which is only available in silver. The code is the first 2 letters of the finish itself, the code for silver profile would be 'SI'. The example shown indicates a silver profile has been selected.

A / AP / SM / 01 / 20 / **4** SI / 01

## WANT MORE CUSTOMISATION?

### MORE INFORMATION

The following pages give a comprehensive overview of all of our **Profile Solutions**.

# SURFACE

Available in 6 size options including one **IP65 rated** option, our wide range of surface profiles will be suitable for many applications both internally and externally. These range from undercabinet installations in kitchens, inside wardrobes and many other residential and commercial applications.

## 10mm x 10mm - Fits all LED Strip upto 6mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 01	/ 20	/ SI	/ 01

## 8mm x 17mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 02	/ 20	/ SI	/ 01

## 13mm x 16mm - Fits all LED Strip upto 10mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 03	/ 20	/ SI	/ 01

## 15mm x 18mm - Fits all LED Strip upto 10mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 05	/ 65	/ SI	/ 01

## 14mm x 23.5mm - Fits all LED Strip upto 18mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 06	/ 20	/ SI	/ 01

## 20mm x 20mm - Fits all LED Strip upto 17mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SM	/ 06	/ 20	/ SI	/ 01

\* For white variant add 'WH' in place of 'SI' or black add 'BL' in place of 'SI' into the above product codes e.g. **A/AP/SM/01/20/WH/01**  
\* Applicable for all profiles listed on this page

# RECESSED

Available in 5 size options including one **IP65 rated** option, our wide range of recessed profiles will be suitable for many applications both internally and externally. Primarily used as ceiling, wall and floor lighting the recessed profile makes LED-CELL strip extremely versatile. It can also be used for display lighting, accent lighting and also even step lighting, offering great versatility for most applications.

## 15mm x 20mm - Fits all LED Strip upto 10mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ RE	/ 01	/ 20	/ SI	/ 01

## 8mm x 25mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ RE	/ 02	/ 20	/ SI	/ 01

## 9mm x 30mm - Fits all LED Strip upto 21mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ RE	/ 03	/ 20	/ SI	/ 01

## 26mm x 21mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ RE	/ 04	/ 65	/ SI	/ 01

## 66mm x 12.5mm Wall Recessed

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ WR	/ 01	/ 20	/ SI	/ 01

\* For white variant add 'WH' in place of 'SI' or black add 'BL' in place of 'SI' into the above product codes e.g. A/AP/RE/01/20/WH/01

\* Applicable for all profiles listed on this page except Wall Recessed profile, this is only available in Silver.

# PLASTER-IN

Available in 5 sizes and applications, our new plaster-in recessed profiles will help create a sleek and stylish finish.

## 15mm x 15.5mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ PI	/ 01	/ 20	/ SI	/ 01

## 29mm x 14mm - Fits all LED Strip upto 20mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ PI	/ 03	/ 20	/ SI	/ 01

## 26.5mm x 46mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ PI	/ 10	/ 20	/ SI	/ 01

## 23mm x 53mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ PI	/ 11	/ 20	/ SI	/ 01

## 11mm x 35.5mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ PI	/ 12	/ 20	/ SI	/ 01

\* For white variant add "WH" in place of "SI" or black add "BL" in place of "SI" into the above product codes e.g. **A/AP/PI/12/20/WH/01**

\* Applicable for all profiles listed on this page

# SUSPENDED

The suspended profile allows for flexible and adjustable lighting placement, as it can be suspended at various heights and positions, creating a visually striking effect, as the suspended profile adds a sense of depth and dimension to the space while providing a diffused and uniform light distribution, creating a modern and stylish look decorative element to the room with sleek and stylish design.

**35mm x 35mm - Fits all LED Strip upto 25mm wide**

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ SU	/ 01	/ 20	/ SI	/ 01

\* For white variant add 'WH' in place of 'SI' or black add 'BL' in place of 'SI' into the above product codes e.g. **A/AP/SU/01/20/WH/01**

# STEP-EDGE

The step-edge profile enhances safety by providing illuminated steps for better visibility, and it adds a visually appealing accent to the staircase, creating a modern and decorative element to the room with sleek and stylish design.

**26.3mm x 68mm - Fits all LED Strip upto 12mm wide**

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ ST	/ 01	/ 65	/ SI	/ 01

\* For white variant add 'WH' in place of 'SI' or black add 'BL' in place of 'SI' into the above product codes e.g. **A/AP/ST/01/65/WH/01**

# COVE

The coving profile provides a hidden and diffused uplighting effect, minimising glare and creating a soft ambience, while also adding an elegant and decorative element to the room with sleek and stylish design.

## 43mm x 17.7mm - Fits all LED Strip upto 12mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ CO	/ 02	/ 20	/ SI	/ 01

\* No white or black options available for this profile

# ANGLED

Ideal for under-cabinet lighting, retail displays, shelving, and architectural accent lighting, this angled profile ensures a sleek and professional installation with smooth, glare-free illumination

## 16mm x 16mm - Fits all LED Strip upto 10mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ AN	/ 02	/ 20	/ SI	/ 01

## 18.4mm x 18.4mm - Fits all LED Strip upto 14mm wide

		MOUNTING	SIZE	IP	FINISH	REVISION
A	/ AP	/ AN	/ 03	/ 20	/ SI	/ 01

\* For white variant add 'WH' in place of 'SI' or black add 'BL' in place of 'SI' into the above product codes e.g. A/AP/AN/03/20/WH/01

\* Applicable for all profiles listed on this page

# Python White Flexible Strip Kits

- 5 metre flexible strip kit with self-adhesive back suitable for semi-commercial and residential applications
- Flexible quick-fit joint included
- Fast and easy-fit plug and play connection from driver to LED strip
- Cutting point every 80mm
- Strip width 10mm
- 6W per metre

Plug-in Connection from Strip to Driver

**Each Kit Includes:-**  
LED Driver, Flexible Quick-Fit Joint and 5M Strip

# UNDERCABINET AND BATHROOM

Ideal for illuminating worktops and wash areas, our under cabinet and bathroom lights deliver high quality directional output.

Easy to fit, they are the perfect solution for residential and hospitality projects, providing light to smaller areas as required. Cool white, warm white and CCT selectable models are available across the range, delivering different colour temperatures according to individual project specifications.

# Reveal T

- Sleek and modern undercabinet lighting range suitable for kitchen cabinets, wardrobes, and other residential cabinetry
- Low voltage (12V) system for safe and efficient operation
- Innovative wave sensor control allows touch-free on/off activation and dimming with a simple hand gesture
- The kit includes three lights, a driver, and a 4-way splitter to power all units. A fourth light (sold separately) can be added using the included splitter to create a 4-light setup.
- Simple plug-and-play installation – each light connects via a 1.5m lead into the splitter, which then plugs into the driver. Single lights are extensions only and must be used with a compatible kit
- Removable frame ensures easy installation, allowing for quick surface mounting and seamlessly clicking back into place to conceal screws for a clean, polished finish

## Finish Options

## EVO

SCAN FOR MORE DETAILS

The **Disco EVO** bulkhead range has been redesigned for faster, contractor-friendly installation without compromising on performance. Featuring a twist-on diffuser, pre-drilled base with a central grommet, and reinforced base, installation is quicker and easier than ever. Ideal for residential and commercial spaces, including bathrooms, corridors, and communal areas, with ceiling and wall mounting flexibility.

### Fast and Easy Install

Twist-on diffuser and 2-part design with push-fit terminals allow quick and easy installation

### Secure Installation

Secure and stable mounting now with **four** fixing points

**Reinforced** design

### Reinforced Base

Reinforced base with a pre-drilled back entry and grommet for enhanced durability and effortless installation

### Speed-Optimised Packaging

Packed with the base facing up and detached for a fast, hassle-free installation

### Slim and Efficient

Upto 145lm/W inside a slender profile offers an efficient luminaire suitable for many applications

### Multi CCT and Wattage

Dual power selectable with 3000/4000K and 6500K colour temperature options

# Gamma and Gamma Mini

- Ultra slim modern polycarbonate wall/ceiling light suitable for education, residential and ancillary applications
- CCT selectable between 3000K, 4000K and 5000K and power selectable; offering a choice of 2 outputs, in one luminaire
- High efficiency up to 120lm/W
- Centralised loop-in, loop-out terminals with push button release feature ensures a quick and easy installation (standard only)
- Innovative hinged hatch compartment allows quick access to adjust microwave and emergency option settings
- Additional profile channeling runs parallel to cable glands, allowing easy installation for applications where the cable runs across the ceiling
- Satin Chrome and Black trim bezel accessories available
- /MWS and MWS/M3 has integral photocell isolation dip switch
- /MWS supports Corridor Function with the capability to switch between modes
- Non-dimmable

SCAN FOR MORE DETAILS

The **Wolf Wallpack range** features robust die-cast aluminum construction and a sleek, low-glare design, ideal for commercial and industrial use. Designed for quick installation, it includes multiple conduit entries and BESA mounting. With CCT and power selectability, Dark Sky compliance, and smart control options, it offers versatile outdoor lighting. Available in standard and mini versions for different installations.

### Versatile Mounting

Compatible with BESA, conduit box, and surface conduit entry.

### Easy Installation

Quick-disconnect gear trays and push-fit terminals for easy upgrades and maintenance.

### CCT and Glare Control

Low-glare optic, CCT selectability, and multi-wattage for flexibility. Less than 1% upward light distribution reducing light pollution and supporting Dark Skies recommendations.

### Robust Design

IK10 impact-resistant polycarbonate cover and IP65 rating for tough environments. Available in Black and Silver Grey finishes.

# WOLF WALLPACK

- Modern, robust die-cast aluminium low glare wall pack suitable for commercial and industrial applications
- Advanced lens technology offers wide distribution for optimum spacing and uniformity; whilst ensuring minimal uplight and light pollution
- Reduced light pollution with 0% upward light distribution, helps with compliance with Dark Skies recommendations
- Power selectable; offering a choice of 3 outputs, in one luminaire
- High efficiency up to 120 Lm/W
- Electrostatic paint finish for enhanced corrosion resistance
- Multiple conduit entry and BESA fixing points
- 20mm East and West side entry for surface conduit and through-wire
- Single and double post top bracket accessories available allowing installation onto lighting columns, suitable for carpark or walkways
- Dimmable and Smart options available

# BOLLARDS

---

Ideal for illuminating pathways and patios, our attractive range of bollard lights provide reliable light in outdoor spaces.

Simple to install, both root and surface mountable products are available for environmental projects.

# Taurus

- Robust die-cast aluminium bollard with a textured graphite finish suitable for education, commercial and hospitality outdoor applications
- CCT selectable between 3000K and 4000K and power selectable; offering a choice of 3 outputs, in one luminaire
- High efficiency upto 110lm/w
- Die-cast aluminium head with polycarbonate lens
- Innovative base plate design allows greater installation flexibility
- Supplied c/w root mounting kit
- Integral emergency option

# FEATURE LIGHTING

When it comes to highlighting specific design elements of buildings or outdoor spaces, our range of attractive spike, inground and projector lights are the ideal solution.

Robust and resilient, many luminaires come with a five year warranty and have a minimum IP rating of 65. Ideal for illuminating pathways, spotlighting garden features and creating outdoor lighting effects, our feature lighting is flexible and can be used in wide range of applications such as residential, commercial and hospitality settings

# FOLIAR CONNECT®

**Foliar Connect** is a revolutionary 24V low-voltage lighting system designed for effortless outdoor illumination. With a plug-and-play setup and a centralised hub for CCT selection, you can create stunning, professional-quality lighting designs with ease.

## Mini Flood Spike

Provide broad, even illumination for garden beds, walls, and pathways, enhancing open landscapes.

## Planter Spike

Add stylish accent lighting to pots, balconies, and patios, creating warmth in outdoor spaces.

## Spot Light Spike

Highlight trees, statues, and architectural details with precise, directional lighting for stunning focal points.

## Plug & Play

Simply connect and expand your system without an electrician\*

\*Hub must be installed by a qualified electrician

## CCT Selectable

Adjust all lights to 3000K or 4000K with one hub.

## Smart Control Option

Upgrade to OCTO for app-based control, dimming, and scheduling.

## Minimalist Design

Slim, discreet design to blend seamlessly into landscapes.

## Low Voltage

24V offering enhanced safety and energy efficiency

## Durable & Weatherproof

IP66 rated for long-lasting performance

**Designed for landscapers and contractors** | high-end aesthetics with easy installation and control.

# How it works

Installing your outdoor lighting has never been easier. Simply install the hub, then connect and position the lights to suit your project. This low-voltage, plug-and-play system allows for quick setup and effortless expansion, with no complex wiring required. Lights can be added, adjusted, or repositioned with ease, ensuring a seamless and stylish outdoor lighting experience. Plus, with clear guidance on where each light works best, you can achieve the perfect illumination for any space. Install once, enjoy forever.

## Install the Control Hub

Choose the standard hub for manual CCT selection or the OCTO hub for smart app control, dimming, and scheduling\*

\*Hub must be installed by a qualified electrician

## Expand with Splitters

The system offers 2-way and 4-way splitters, allowing flexible configurations to suit different layouts, detailed below. A maximum of 10 luminaires on a 12 metre cable run length can be added to 1 hub.

## Plug & Play Luminaires

Simply insert the spike lights into the ground and connect them using quick-fit connectors—no tools or wiring needed.

### 2-Way

Ideal for smaller areas or setups requiring precise control, such as illuminating a single pathway or a compact planter

### 4-Way

Best for larger landscapes or installations needing multiple lights from a single hub, such as wide garden beds, driveways, or multi-zone setups.

## Last but not least...

**Seamless Control & Smart Integration** – Set all luminaires to 3000K or 4000K at the hub for a perfectly synced look. Upgrade to **OCTO Smart Control Hub** for dimming, scheduling, and app-based adjustments, bringing effortless automation to your outdoor lighting.

# FOLIAR CONNECT®

- Modern and architectural feature lighting system suitable for residential gardens, pathways, planters and driveways
- Intelligent and 24V low voltage plug-and-play system allows the end-user to safely add and remove luminaires without the need for an electrician (Control Hub must be installed by a qualified electrician)
- CCT selectable between 3000K and 4000K
- Innovative Controller Hub keeps the colour temperature consistent across all luminaires in the system without the need for manually changing
- Available in three spike light types (Planter Spike, Mini Flood, and Spotlight) in black and green finishes
- Minimalist design with slim spikes blend discreetly into planters and landscaping whilst minimising impact
- IP66 rated Controller Hub comes with an easy-to-install bracket, including a built-in spirit level
- Compatible with a range of accessories, including snoots, splitter, T connector, and link leads for complete customisation.
- OCTO option available for dimming and CCT control

# FLOODLIGHTS

---

Our range of asymmetrical and symmetrical floodlights are suitable for a wide range of outdoor settings including residential and industrial sites as well as sports grounds and car parks.

Built to withstand the elements, all products in the range have a minimum IP65 rating with Aztec products resilient enough for installation in corrosive areas such as swimming pools and coastal locations. Photocell and PIR options are available across the range, offering added control over output.

330

COMMERCIAL

336

RESIDENTIAL

# Asymmetrical vs Symmetrical Floodlights

## Asymmetrical

- Asymmetrical light is directed in front of the fixture and where illuminance is required
- Integrated advanced optics that allow to direct the light beam
- Ideal for use in built up areas such sports grounds, open car parks and tennis courts where light pollution for neighbouring properties is a consideration
- Asymmetrical floodlights are able to provide up to 50% better output utilisation into the intended illuminated area and achieve up to 50% less light pollution

## Direct upward light

## Symmetrical

- Symmetrical light sources distribute light evenly in all directions,
- Suitable for general lighting of open spaces
- Ideal for installation in large spaces such as construction sites, outdoor storage and warehouse yards

## AZTEC LED

- High performance die-cast aluminium LED floodlight suitable for industrial, commercial and coastal applications
- High output, high efficiency asymmetric lens technology for anti-light pollution (asymmetric versions only)
- Marine grade construction ideal for coastal and adverse weather, swimming pool and chemical plant applications
- CCT selectable between 3000K, 4000K and 5000K
- Integral photocell with 2 x lux settings and off options
- Fast fit lever terminals ensure easy and speedy loop-in, loop-out installation
- 10KV surge protection on 120W to 320W, 6KV surge protection on 20W to 80W
- Installed breathable gland prevents internal moisture accumulation
- Bracket design allows installation without removing mounting bracket
- High efficiency up to 180 Lm/W
- Pre-wired with 1.5 metre of rubber insulated cable for ease of installation
- 1-10V dimmable as standard (excluding AAZT1/\*\*)

- High performance projector with a vast number of customisation options suitable for all commercial, hospitality, retail and industrial applications
- Die-cast construction provides sleek and modern appearance, perfect for architectural applications
- Beam angle options ranging from 8° up to 60° ensure suitability for most applications
- Multiple control options available, DALI (as standard), DMX and Casambi (35W and 100W only) as well as an extensive collection of CCT options (2000K, 2700K, 3000K, 4000K, 5000K, TW, RGBW) provide complete control and light output for even the most complex of projects
- Low glare hood and honeycomb film accessories available for projects when glare optimisation and upward lighting are considerations

### CCT Selectable and RGBW

Integral CCT switch allows the installer a choice of either 3000K, 4000K OR 6000K colour temperature options. Option of RGBW version also available, complete with remote control

### PIR Options

Modern floodlight with optional PIR attachment, which can be attached after installation without the need for extra wiring. RF PIR accessory also available, complete with remote control

### Easy Installation

Junction box with loop-in, loop-out terminal design eliminates need for separate connection box, giving you a fast and flexible installation, whilst reducing waste with no pre-leaded cable. The integrated gland supports cables up to 9mm cross-section, ensuring compatibility with standard installation requirements.

### Prismatic Diffuser

Prismatic diffuser design reduces glare and hides LEDs from view

# Calinor Evo®

- Compact, slim and robust designed LED floodlight suitable for residential and commercial applications
- Polycarbonate front trim provides excellent corrosion resistance
- Toughened microprism glass for visual comfort, uniformity and durability
- Bracket design allows installation without removing mounting bracket
- Pre-wired with 1 metre of rubber insulated cable for ease of installation and easy integration with Floodbox accessory
- Breather gland acts to minimise risk of water ingress
- Polycarbonate spike accessory allowing installation into lawn and garden applications
- PIR versions complete with manual override facility
- Non-dimmable

AMFLSA	Floodlighting Spike Accessory
AMFLWB	IP65 Mini FloodBox

### Angled Bracket

Bracket design allows installation without removing mounting bracket saving installation time

### Slim Design

Slim design with 180° folding bracket provides sleek and modern appearance, whilst also reducing overall footprint

### High Efficiency

Delivering up to 110lm/W lowering energy costs compared with traditional floodlight fittings

### Micro Prism Diffuser

Toughened microprism glass for visual comfort, uniformity and durability

# Eden

- Compact and economic aluminium LED floodlight suitable for semi commercial applications
- Bracket design allows installation without removing mounting bracket
- PIR versions complete with manual override facility (10W-50W only)
- Pre-wired with 1 metre of rubber insulated cable for ease of installation
- Polycarbonate spike accessory allowing installation into lawn and garden applications (10W-30W only)
- Non-dimmable

## FLOOD BOX

### 20mm Side and Top or Bottom Drill-outs

Side drill-outs for M20 multi-wiring, conduit entry or sensor applications making it easier to install

### M6 Universal Fixing Point

Combined with locking washer and shakeproof nut. Easy to use junction box design to be installed with a floodlight quickly and easily. M6 fixing point can be used at both the top and bottom of the Flood Box

### Flexible Installations

Polycarbonate enclosure is suitable for housing smart wireless controls and associated wiring. Provides flexibility when installing mini floodlights, allowing you to add on optional extras. Suitable for floodlights up to 5kg, this includes Eden and Calinor EVO  
\*Connectors not included

### IP65 IK07 Rated Polycarbonate

Ideal for coastal areas to house wireless controls and wiring without being damaged by the harsh weather conditions and is designed with UV stabilised polycarbonate with IK07 impact resistance

# IP65 Mini Floodlight Wall Box

- Unique, innovative IP65 adaptable installation box for mini floodlights (up to 5Kg)
- Universal mounting allows for neat, tidy and speedy installation
- Polycarbonate construction ideal for coastal and adverse weather applications
- Central M6 fixing bolt with locking washer and shakeproof nut
- 20mm side and top drill outs for conduit, cable gland or sensor mounting
- Generous, polycarbonate enclosure, suitable for housing smart wireless controls
- IK07 impact rating offers superior product durability
- Captive quick-release cover screws
- Design Registered 6097648 (United Kingdom and Europe)

# HIGH LOW BAY

---

From racking aisles to workshops or even car showrooms, our high/lowbay luminaires are ideal for commercial, retail and industrial settings.

They are robust and resilient, and come with warranty period of up to 7 years, for added peace of mind. A range of options and accessories are available across the collection including emergency, OCTO smart control, digital dimming and microwave sensors.

High/lowbays are designed to illuminate open areas and racking aisles and are ideal for commercial, retail and industrial settings. From high performance to more economical options, our luminaires are suitable for a wide range of applications with optional extras to ensure optimum results.

AZLE1/1/CW	Z LED ECO Highbay 1 - CW	100W		11000lm		253mm	80mm
AZLE2/1/CW	Z LED ECO Highbay 2 - CW	150W	4000K	17500lm	120lm/W	308mm	84mm
AZLE3/1/CW	Z LED ECO Highbay 3 - CW	200W		23500lm		354mm	87mm

For Daylight 6500K variant replace 'CW' from the above product codes to 'DL' e.g. **AZLE1/1/DL**

### Installation Options

High bay can be installed by means of drop rods, jack chain and catenary wire, providing flexibility depending on the ceiling type

### High Efficiency

Offering up to 120lm/W the ZLED ECO is more energy efficient than traditional high bay fittings, reducing energy consumption and lowering running costs.

### Lensed Diffuser

Provides more controlled beam angle and improved light distribution ensuring applications are lit effectively

### Driver on Board

Providing a slim and lightweight high bay that is easy to install

# OCU-LUX

- Robust and versatile multi-wattage LED high bay, designed for demanding applications such as engineering workshops, warehousing, school sports halls, and sports centres
- Tested and approved to DIN18032-3 for ball impact resistance, ensuring durability in sports facilities
- Superior performance and uniformity, ideal for projects where high-impact lighting and even coverage are essential
- Multi-wattage (160W, 120W, 80W) ensures flexibility for varied mounting heights and lux requirements
- Suspended or surface installation methods offer a simple and professional solution
- Durable polycarbonate rear control gear housing supports OCTO integration, enabling advanced lighting control and adaptability.
- Double-sided gear tray allows emergency control gear to be integrated within the luminaire for a streamlined and practical design
- Quick and simple installation facilitated by a rear fast connector plug
- Exceptional efficacy of 185 Lm/W delivers maximum energy saving and performance
- Zhaga socket for compatibility with plug-in sensors, providing easy customisation
- Zhaga MWS, PIR and OCTO sensor accessories for enhanced functionality and control
- 1-10V dimmable as standard

# Z LED opti-X

- Powerful and durable multi-wattage and multi-beam angle surface-mounted IP65 linear high bay, perfect for the demands of all industrial applications, including warehouses, sorting areas, and production facilities
- Enhanced functionality with two switches, allowing users to adjust the output between 100W, 150W, and 200W and change the angle between four beam angle options: 40x80 / 50x100 / 70x120 / 100x120. This adaptability fits perfectly in diverse applications, such as in rented warehouses, where end-users can modify the installation to their specific needs with a simple switch change
- Versatile installations at different heights possible when utilising the multi-output feature, catering to various racking heights and open areas, thanks to the changeable optic
- All-in-one solution for multiple projects with just one item to stock, providing cost-efficiency and convenience
- Surface mounting possible with AZPLLED/LC accessory
- 1.5m Suspension kit supplied as standard
- Die-cast aluminium construction provides enhanced thermal performance for longer LED lifespan
- Plug and play microwave sensor option, offering maximum energy saving
- 0/1-10V dimmable as standard (installer must drill through pilot hole and use an IP rated gland on install)

## Microwave Sensor

Microwave sensor option improves overall functionality and provides great energy saving benefits.

- IP65 Rated Enclosure.
- Upto 12M Mounting height ideal for low and high level applications.
- Detection Radius of 8M.
- Programmable by remote – options include, hold time, stand by dim level, daylight sensor and many more. (\*not daylight harvesting)

## Multi...functional

Multi-wattage and Multi-beam angle selectable ensures suitability for a range of applications.

# Z LED LINEAR

- Powerful and durable surface mounted IP65 linear high bay, perfect for the demands of industrial applications
- Surface mounting possible with AZPLLED/LC accessory
- 1.5m Suspension kit supplied as standard
- Die-cast aluminium construction provides enhanced thermal performance for longer LED lifespan
- Plug and play microwave sensor option, offering maximum energy saving

# BATTENS AND WEATHERPROOFS

Whether you're looking for a robust lighting solution for industrial buildings, storerooms, car parks or other challenging spaces, we have right product for you. Our resilient range of weatherproofs come with IP65 rating as standard and offer warranties of up to 7 years for additional peace of mind.

Our battens are available in a wide choice of options, offering you a choice of CCT selectability, multi-wattage, OCTO smart control, dimmable and sensor functionality.

374

**WEATHERPROOFS**

378

**IP69K**

379

**BATTENS**

- IP66 non-corrosive batten suitable for industrial applications and ancillary areas
- High efficiency up to 160 Lm/W
- CCT selectable between 4000K, 5000K and 6500K and power selectable; offering a choice of 2 outputs, in one luminaire
- Slim sloped diffuser design creates sleek appearance and offers greater light distribution
- LED performance allows point-to-point replacement of existing fluorescent luminaires
- Lockable heavy-duty stainless steel clips supplied as standard for added safety and security
- Whole luminaire illuminates during emergency operation rather than a small area, allowing less emergency versions required on an installation
- Patent applied GB2504421.5 (United Kingdom)

FOR ALL RANGE DETAILS

The **Tornado EVO** is the next step in the evolution of weatherproof lighting, designed to meet the ever-changing needs of contractors and industrial applications. With a focus on ease of installation, durability, and versatility, this cutting-edge non-corrosive delivers unparalleled performance in even the most demanding environments. Enhanced with IP66 protection, multiple conduit entries, and a moveable terminal block, it's better and more versatile than ever before.

## 7 YEAR WARRANTY

### Ultimate Warranty

Industry leading 7-year warranty for long-lasting performance and total peace of mind.

## IP66 IK10

### Enhanced Protection

Upgraded to IP66 and IK10, offering superior protection against water, dust, and impact.

### Increased Flexibility

Three side conduit entries allow for enhanced flexibility and faster installations

### Versatile Terminal

Flexible placement of the terminal block, at either end or the middle provides versatility for end and central wiring.

### Painless Install

Base supplied disassembled, with easy attach clips for easy installation.

### Stable Mounting

Large installation bracket fixings ensure a more secure and durable mounting process.

- Ultra slim IP65 LED robust non-corrosive batten ideal for industrial applications and ancillary areas
- High efficiency up to 161 lm/W
- Unique base design caters for multiple installation methods
- Installer friendly embedded features aid accurate and fast installation for any application
- Quick release LED array / gear tray assembly provides the installer the means to faster installation / maintenance
- Fast latching / permanently located stainless steel side clips ensure a quick and secure connection
- Tested and approved to BSEN60598-2-24. For use in areas at risk of fire due to combustible dusts or fibers - applications such as hay storage, feed, riding halls, industrial buildings, and warehouses
- Self-test emergency option with Li-ion battery technology, reducing charge time and running costs
- High output 5ft options available
- Design Registered 90065952290003, (United Kingdom and Europe)
- Powered by Tridonic

# COMMERCIAL LINEAR

From modern suspended linears to flexible surface fittings, our commercial linear products combine streamlined aesthetics with a range of functional options to deliver the optimum lighting solution in commercial, retail and educational settings.

Ideal for open areas and corridors, products have been well designed to aid easy installation. Products in the range cover a wide selection of features including bi-directional lighting output, selectable CCT and UGR<19 compliance. Emergency, OCTO smart control and dimming options are also available.

384

**SURFACE OR  
SUSPENDED LINEAR**

408

**RECESSED  
LINEAR**

# Vasco EVO

- Aluminium bi-directional suspended or surface linear suitable for education, commercial and retail applications
- Bi-directional light output as standard with 30% upward light and 70% downward light ratio (downward only option can be selected if required, please note light output changes in downward only mode)
- CCT selectable between 3000K and 4000K and power selectable; offering a choice 2 of outputs, in one luminaire
- High efficiency upto 150lm/W (when used with UGR reflector)
- Opal diffuser (provided as standard) ensures optimal light uniformity
- Innovative lens design with different diffuser options allows end user the choice between standard or low glare UGR<19 rated outputs. Low glare rated diffuser sold separately as accessory (AVAS\*\*/1/UGR)
- Integral PIR option discreetly positioned in the end cap
- Pre-wired with 1.5 metre cable and supplied with suspension kit with adjustable suspension points
- Surface and track mounting available using AVAS/MM/1 and AVAS/P3/1/\* accessories
- 1-10V dimmable as standard

\* Only when used with AVAS\*/1/UGR accessory

### CCT Selectable

Integral CCT switch allows the installer a choice of either 3000K or 4000K colour temperature options

### Interchangeable Reflector

Specially designed optics allows to achieve UGR19 low glare rating. Simply unclip the end cap and replace the diffuser.  
\*Opal diffuser supplied as standard (UGR23)

### Varied Mounting Options

Flexible installation with surface, suspension, track and wall mounting options available

### PIR Option

Available as an end cap for standalone fittings enabling flexible motion detection and energy efficiency. Compatible with Standard option 1-10V

**110°**  
Beam  
Angle

### CCT Selectable

Integral CCT switch allows the installer a choice of either 3000K or 4000K colour temperature options

### Mounting Aid

Sliding mounting bracket and installation markings added to the diffuser aid a quick, versatile and simple install

### Push Fit Terminals

Push fit loop-in, loop-out terminals ensure a fast and easy installation

### Easy Access

Specially designed diffuser is easily removable allowing almost instant access to internal components

- Architectural suspended linear for office, retail and educational applications
- Adjustable bracket system allows complete flexibility for mounting installation
- Specially designed diffuser allows installer quick access to wiring ensuring a quick and easy installation
- CCT selectable between 3000K and 4000K and power selectable; offering a choice of 2 outputs, in one luminaire
- Supplied bi-directional light output as standard (directional only option can be selected if required)
- Suitable for individual or continuous suspension
- Supplied c/w 1.5m suspension kit as standard

# COMMERCIAL MODULAR

Designed for a wide range of applications including commercial, retail and educational settings, we have a wide range of recessed LED panels and modulares available. Meeting a variety of project specifications, our panels incorporate innovative design features to meet the most common lighting requirements such as UGR<19 ratings, robust IP ratings and high levels of efficacy. Options including emergency self-test, OCTO smart control and digital dimming are available throughout the range.

# Pace Tunable White 600x600

- Backlit OCTO enabled LED panel suitable for education, commercial and ancillary area applications
- Slimline design allows for installation into shallow ceiling voids
- UGR<19 (unified glare rating) compliant luminaire assisting to eliminate glare for visual comfort
- One product provides complete control of colour temperature selection, ranging between 2700K and 6500K. Colour selection achieved via the Casambi App
- Full dimming control and circadian rhythm option via Casambi App
- Dimmable emergency option available
- TPa as standard
- Self-Test Panel Pod and Sensor Pod compatible (see p430 - p431 for more information)

## Panel Pod® Emergency

- Integral Self-Test emergency pods to convert any Pace and Endurance panel to emergency, instantly
- LiFePO4 Lithium battery provides improved energy consumption, product reliability and lifetime
- Simple, quick twist and lock fixing
- 6 way fast wire plug in connector for speed and ease of installation (APOD/1/3NM/DA only)
- Supplied with a pre-wired 1 Metre cable for ease of installation
- Tri-colour LED shows green for healthy running condition, red/flashing for fault conditions and white for emergency operation
- Patent Protected: GB 2522285B (UK), EP 2957826B (Europe)
- Design Registered: GB 90027122320001 (UK), EP 002712232-0001 (Europe)
- Self-test as standard (AIRLED/POD/3NM/ST) with DALI and DALI+ option (APOD/1/3NM/DA)

CODE	DESCRIPTION
ASRF/60/1	600x600 Skylight Recessed Frame

# Juno

- Architectural LED recessed modular suitable for education, commercial and healthcare applications
- UGR<19 (unified glare rating) compliant luminaire assisting to eliminate glare for visual comfort
- Dual direct / indirect output. Direct from the centre micro-prism centre line coupled with indirect output from the side diffuser sections. Providing a perfect combination for task and ambient lighting from one source
- Black polycarbonate micro reflector low glare design
- Micro-prism diffuser design ensures reduced glare and visual comfort
- Power and CCT selectable; offering a choice of 4 outputs and 3 colour temperature options, in one luminaire
- OCTO compatible tunable white version available with CCT selection between 2700K-5000K ideal for any Human Centric Lighting requirements
- TPa as standard

# HEALTHCARE

---

Healthcare is a demanding environment, requiring lighting which allows healthcare staff to see clearly to diagnose, treat and care, whilst creating a space which ensures patients are calm and relaxed.

Our range of lighting for healthcare environments includes robust bulkheads with a wide range of features including corridor function, dimmable, photocell, microwave sensor and emergency options. We also offer ultra-robust linears and cornice fittings as well as thoughtfully designed anti-ligature fixtures for the protection of individuals who are deemed to be at risk.

# ARX Downlight Kit

- Anti-ligature downlight recessing frame kit suitable for healthcare and education applications
- Tested and approved to Medium Secure Services, Annex B: Testing Levels Type 1, Type 2 and Type 4
- Slimline design blends into ceiling giving aesthetically pleasing, near seamless appearance of ceiling integration
- IK10 rated TP(a) polycarbonate diffuser and anti-tamper screws provides durability and resistance to vandalism
- Suitable for use with all Comfort (p94 - p97) ranges, AVAN4 and AVLG4 Vantage downlight ranges (p98 - p100) and Galaxy downlight ranges (p93)
- Please note: This product comes supplied less downlight

Fitted with  
Comfort Downlight

# EMERGENCY

From exit boxes to downlights, bulkheads to signs, our comprehensive range of emergency lights meet all project specifications.

The majority of our fittings are powered by pulse charging lithium battery, making our emergency luminaires reliable and long-lasting, with all lithium products having a seven year battery life and warranty. Many products such as the Guardian Bulkhead and Adler Exit Sign also incorporate intelligent self-test technology, eliminating the requirement for manual testing for speedy and accurate maintenance.

# LITHIUM BATTERY TECHNOLOGY

## SMALLER BATTERY

Lithium has a smaller form factor allowing more flexibility with luminaire design

## PROTECTION

Lithium batteries are installed with protection. Constant monitoring against short circuit, over-charging and even mechanical damage

## LOWER PARASITIC LOAD

Lower parasitic load; reduced power consumption. Therefore reduced costs and reduced carbon footprint.

## PULSE CHARGING

Pulse charging instead of trickle charging. Less strain on components; therefore electronics last longer and longer warranties can be offered.

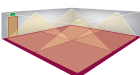

**PRO**  
**7 YEAR**

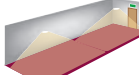

Battery Warranty  
Product Warranty

- Ultra-slim profile LED polycarbonate bulkhead
- Selectable self-test or manual test emergency operation for installation flexibility
- Supplied with self-adhesive legend
- DALI2 addressable with Self-Test functionality, easily upgradable to OCTO Insight for smart lighting integration, and defaults to self-test mode when not connected to a DALI bus.
- Choice of 1 or 3-hour emergency durations and features an intelligent charge system with temperature protection for enhanced safety and reliability
- 20mm side, end and rear cable entries
- LiFePO4 Lithium battery provides improved energy consumption, product reliability and lifetime
- Quick release LED array/gear tray assembly provides the installer the means to faster installation/maintenance
- Viewing distance 18 metres

# Adler Exit Sign

- Light weight contemporary Ansell design, multiple install options LED Exit Sign
- Rotatable legends to reduce waste and increase flexibility
- One fitting that enables choice of five different mounting options:  
Suspension, Recessed, Ceiling surface, Wall surface, Side arm wall mounting
- 1 metre suspension cable supplied as standard
- LiFePO4 Lithium battery provides improved energy consumption, product reliability and lifetime
- Available in black and white finishes
- Self-test emergency as standard
- DALI Emergency option available
- Track option available allowing installation into Primo Three Circuit Track Systems
- Design Registered 90083153030001 (United Kingdom and Europe)

SIDE WALL

RECESSED

## Mounting Options

This one fitting enables a choice of five different mounting options: Suspension, Recessed, Ceiling surface, Wall surface, Side arm wall mounting. To side wall mount and recess, additional accessories are required.

LEFT

RIGHT

DOWN

UP

## Rotatable Legend

The arrow legend can be rotated according to the needs of the space, this reduces waste and increases flexibility. There is no need to order separate legends when ordering.

Supplied with **2x** arrow legends and **2x** running man legends

## Simple Self-Test

The Self-Test indicators on both the Slim Exit Sign and Exit box have been strategically placed, allowing complete visibility and easy identification of emergency status with just a glance.

**0°-180°  
ROTATION**

## Adjustable Design

The Exit Sign has been designed with flexibility in mind. The unique ratchet adjustment design allows the legend to be adjusted and fixed at any angle between 0-180, ensuring the Adler Slim Exit Sign can be installed almost anywhere.

# Eagle

- Modern, slim, 5-In-1 LED Exit Sign
- One fitting that enables choice of three different mounting options:- suspension, recessed or side arm wall mounting
- 1 metre suspension cable supplied as standard
- Supplied with all legend options - arrow down, arrow up and arrow left/right
- Viewing distance 25 metres
- Self-test option

<b>ASBP/21</b>	6.4V 3Ah Li-FePO4 Replacement Battery

## Pre-wired 1 metre cable

As standard ensuring a fast and easy installation

## Twist and Lock Connection

Provides a secure connection and easy installation

## Self-Test as standard

Provides instant indication to status of emergency module and lamp, negating the need for manual monthly and annual checks

## Detection Area and Angle

Provides detection area of 360° with a detection angle of 120°

**\*\* Only one Panel Pod can be attached to the back of individual panels\*\***

# Emergency Bolt-On

- IP65 Bolt on emergency allows you to add emergency lighting at any time.
- Easy to install to any non-corrosive or batten via M20 gland
- LiFePO4 Lithium battery provides improved energy consumption, product reliability and lifetime
- Tri-colour LED shows green for healthy running condition, red/flashing for fault conditions and white for emergency operation
- Self-test as standard
- Supplied with open area and escape route interchangeable lenses
- Design Registered 90084300520001 (United Kingdom and Europe)

Installed on ATLEVO4

# Hawk Highbay Emergency Kit

- Plug and play Self-Test emergency pack to convert Z LED Performance highbay to emergency, instantly
- Plug and play connection ensures a quick and easy installation
- Designed to sit above highbay providing a minimal and discrete appearance
- IP65 as standard
- Self-test as standard
- **Only suitable for use with Z LED Performance (p358)**
- **Please note: This is not suitable for use when Z LED Performance is surface mounted**

# Hawk

- Ultra-slim universal self-test emergency converter pack for LED luminaires
- Selectable self-test or manual test emergency operation for installation flexibility
- Supplied c/w recessed LED indicator housing
- Ideal for most LED panels, Downlights and Linear products
- Compatible for LED luminaires with separate LED driver (Maximum 60V Forward Voltage)
- LiFePO4 Lithium battery provides improved energy consumption, product reliability and lifetime

# AFIX<sup>®</sup> DIM

- Compact and innovative dimmer suitable for residential applications
- Compatible with Prism Pro for seamless integration with existing lighting systems
- Fits into standard rotary dimmer switch plates for easy installation and replacement
- 5-70W load Rating, accommodating a wide range of lighting loads
- Integral dip switches allow the minimum brightness to be adjusted for customisable lighting with second switch allows the dimming mode to be adjusted for precise light control
- Front-facing switches allow adjustments without removing the module from the switch plate
- Push fit terminals for quick and easy installation
- Leading and trailing edge dimming selection via the front dip switch

# Zhaga Sensors

- Plug-and-play Zhaga sensor range suitable for industrial, commercial, and retail environments
- IP65 rated for enhanced durability
- Zhaga Book 18 compliant, ensuring seamless integration with compatible LED luminaires
- PIR motion sensor for standard detection, microwave motion sensor for high-bay/open areas, and
- OCTO Casambi Smart Sensor for advanced wireless control
- OCTO Casambi sensor (AZH/OCTO/IP65/1) enables Bluetooth control with 0-10V and 1-10V dimming, no extra wiring required
- Adjustable detection range and hold time for customised lighting control and energy efficiency
- Daylight threshold setting (AZH/PIR/IP65/1) provides advanced controls and additional energy saving
- Supports daylight harvesting and occupancy sensing to optimise energy savings (AZH/OCTO/IP65/1 only)
- Quick and secure Zhaga socket mounting, ideal for new and retrofit installations
- Wide detection coverage, ensuring reliable performance across various ceiling heights and spaces
- Remote programmer available for Zhaga PIR and Microwave Motion Sensors (AZH/PIR/IP65/1 & AZH/MWS/IP65/1), enabling quick on-site configuration for customised lighting control, including detection range, hold time, and sensitivity adjustments

# GU10 CCT Lamp

- CCT selectable GU10 lamp suitable for residential applications
- Innovative CCT selector switch allows for quick and easy colour change between 3000K, 4000K and 6500K colour temperatures
- Optic design provides greater light distribution and up to 100lm/W efficiency (4000K setting)
- Available in a convenient 10 unit multipack
- Suitable for any GU10 compatible product – Please check lamp size to ensure compatibility
- Non-dimmable

Available in a convenient 10x multipack

# Expert Lighting Knowledge at Your Fingertips

Lighting technology evolves quickly, and staying informed is key to making the right choices. Our Technical A-Z provides clear, comprehensive definitions and explanations of industry terms, helping you navigate specifications, regulations, and best practices with confidence.

Scan the QR code below to **access our full Technical A-Z** online and explore everything from lighting standards to emerging technologies in one convenient place.

# Terms & Conditions

## Conditions of Sale

507

### 1. INTERPRETATION

- 1.1 The definitions and rules of interpretation in this condition apply in these conditions.  
Customer: the person, firm or company who purchases the Goods from the Company.  
Company: Ansell Lighting  
Contract: any contract between the Company and the Customer for the sale and purchase of the Goods, incorporating these conditions.  
Delivery Point: the place where delivery of the Goods is to take place under condition 4.  
Goods: any goods agreed in the Contract to be supplied to the Customer by the Company (including any part or parts of them).  
A reference to a law is a reference to it as it is in force for the time being taking account of any amendment, extension, application or re-enactment and includes any subordinate legislation for the time being in force made under it.
- 1.2 Words in the singular include the plural and in the plural include the singular.
- 1.3 A reference to one gender includes a reference to the other gender.
- 1.4 Condition headings do not affect the interpretation of these conditions.

### 2. APPLICATION OF TERMS

- 2.1 Subject to any variation under condition 2.3 the Contract shall be on these conditions to the exclusion of all other terms and conditions (including any terms or conditions which the Customer purports to apply under any purchase order, confirmation of order, specification or other document).
- 2.2 No terms or conditions endorsed on, delivered with or contained in the Customer's purchase order, confirmation of order, specification or other document shall form part of the Contract simply as a result of such document being referred to in the Contract.
- 2.3 These conditions apply to all the Company's sales and any variation to these conditions and any representations about the Goods shall have no effect unless expressly agreed in writing and signed by a duly authorised officer of the Company. The Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of the Company which is not set out in the Contract. Nothing in this condition shall exclude or limit the Company's liability for fraudulent misrepresentation.
- 2.4 Each order for Goods by the Customer from the Company shall be deemed to be an offer by the Customer to buy Goods subject to these conditions.
- 2.5 No order placed by the Customer shall be deemed to be accepted by the Company until the Company delivers the Goods to the Customer.
- 2.6 The Customer shall ensure that the terms of its order and any applicable specification are complete and accurate and in writing.
- 2.7 Any quotation is valid for a period of 30 days only from its date, provided that the Company has not previously withdrawn it.

### 3. DESCRIPTION

All samples, drawings, descriptive matter, specifications and advertising issued by the Company and any descriptions or illustrations contained in the Company's catalogues or brochures are issued or published for the sole purpose of giving an approximate idea of the Goods described in them. They shall not form part of the Contract and this is not a sale by sample.

### 4. DELIVERY

- 4.1 Unless otherwise agreed in writing by the Company, delivery of the Goods shall take place at the Customer's place of business unless the Goods are collected by the Customer when delivery shall take place at the Company's place of business.
- 4.2 Any dates specified by the Company for delivery of the Goods are intended to be an estimate and time for delivery shall not be made of the essence by notice. If no dates are so specified, delivery shall be within a reasonable time.
- 4.3 Subject to the other provisions of these conditions the Company shall not be liable for any direct, indirect or consequential loss (all three of which terms include, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and similar loss), costs, damages, charges or expenses caused directly or indirectly by any delay in the delivery of the Goods (even if caused by the Company's negligence), nor shall any delay entitle the Customer to terminate or rescind the Contract unless such delay exceeds 90 days. The Customer shall provide at the Delivery Point and at its expense adequate and appropriate equipment and manual labour for loading the Goods.
- 4.4 The Company may deliver the Goods by separate instalments. Each separate instalment shall be invoiced and paid for in accordance with the provisions of the Contract.
- 4.5 Each instalment shall be a separate Contract and no cancellation or termination of any one Contract relating to an instalment shall entitle the Customer to repudiate or cancel any other Contract or instalment.

### 5. NON-DELIVERY

- 5.1 The quantity of any consignment of Goods as recorded by the Company on despatch from the Company's place of business shall be conclusive evidence of the quantity received by the Customer on delivery unless the Customer can provide conclusive evidence proving the contrary.
- 5.2 The Company shall not be liable for any non-delivery of Goods (including shortage in quantity of Goods delivered) (even if caused by the Company's negligence) unless the Customer gives written notice to the Company of the non-delivery or shortage in quantity within three days of the date when the Goods would in the ordinary course of events have been received or in the case of a shortfall in quantity the remaining Goods have been received.
- 5.3 Any liability of the Company in relation to this clause 5 shall be limited to replacing the non delivered Goods within a reasonable time or issuing a credit note at the pro rata Contract rate against any invoice raised for such Goods.

### 6. RISK/TITLE

- 6.1 The Goods are at the risk of the Customer from the time of delivery.
- 6.2 Ownership of the Goods shall not pass to the Customer until the Company has received in full (in cash or cleared funds) all sums due to it in respect of:
- (a) the Goods; and
  - (b) all other sums which are or which become due to the Company from the Customer on any account.
- 6.3 Until ownership of the Goods has passed to the Customer, the Customer shall:
- (a) hold the Goods on a fiduciary basis as the Company's bailee;
  - (b) store the Goods (at no cost to the Company) separately from all other goods of the Customer or any third party in such a way that they remain readily identifiable as the Company's property;
  - (c) not destroy, deface or obscure any identifying mark or packaging on or relating to the Goods; and
  - (d) maintain the Goods in satisfactory condition and keep them insured on the Company's behalf for their full price against all risks to the reasonable satisfaction of the Company. On request the Customer shall produce the policy of insurance to the Company.
- 6.4 The Customer's right to possession of the Goods shall terminate immediately if:
- (a) the Customer has a bankruptcy order made against him or makes an arrangement or composition with his creditors, or otherwise takes the benefit of any statutory provision for the time being in force for the relief of insolvent debtors, or (being a body corporate) convenes a meeting of creditors (whether formal or informal), or enters into liquidation (whether voluntary or compulsory) except a solvent voluntary liquidation for the purpose only of reconstruction or amalgamation, or has a receiver and/or manager, administrator or administrative receiver appointed of its undertaking or any part thereof, or documents are filed with the court for the appointment of an administrator of the Customer or notice of intention to appoint an administrator is given by the Customer or its directors or by a qualifying floating charge holder (as defined in paragraph 14 of Schedule B1 to the UK Insolvency Act 1986), or a resolution is passed or a petition presented to any court for the winding-up of the Customer or for the granting of an administration order in respect of the Customer, or any proceedings are commenced relating to the insolvency or possible insolvency of the Customer; or
  - (b) the Customer suffers or allows any execution, whether legal or equitable, to be levied on his/its property or obtained against him/it, or fails to observe or perform any of his/its obligations under the Contract or any other contract between the Company and the Customer, or is unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986 or the Customer ceases to trade; or
  - (c) the Customer encumbers or in any way charges any of the Goods.
- 6.5 The Company shall be entitled to recover payment for the Goods notwithstanding that ownership of any of the Goods has not passed from the Company.
- 6.6 The Customer grants the Company, its agents and employees an irrevocable licence at any time to enter any premises where the Goods are or may be stored in order to inspect them, or, where the Customer's right to possession has terminated, to recover them.
- 6.7 Where the Company is unable to determine whether any Goods are the goods in respect of which the Customer's right to possession has terminated, the Customer shall be deemed to have sold all goods of the kind sold by the Company to the Customer in the order in which they were invoiced to the Customer.
- 6.8 On termination of the Contract, howsoever caused, the Company's (but not the Customer's) rights contained in this condition 6 shall remain in effect.

### 7. PRICE

- 7.1 Unless otherwise agreed by the Company in writing, the price for the Goods shall be the price set out in the Company's price list published on the date of delivery or deemed delivery.
- 7.2 The price for the Goods shall be exclusive of any value added tax.
- 7.3 Our catalogue, price lists and website contain a large number of products. It is always possible that, despite our reasonable efforts, some of the products may be incorrectly priced. If we discover an error in the price of any product you have ordered we will inform you of this error as soon as possible and we will give you the option of continuing to purchase the product at the correct price or cancelling your order.

### 8. PAYMENT

- 8.1 Subject to condition 8.4, payment of the price for the Goods is due in full within terms notified.
- 8.2 Time for payment shall be of the essence.
- 8.3 No payment shall be deemed to have been received until the Company has received cleared funds.
- 8.4 All payments payable to the Company under the Contract shall become due immediately on its termination despite any other provision.
- 8.5 The Customer shall make all payments due under the Contract in full without any deduction whether by way of set-off, counterclaim, discount, abatement or otherwise unless the Customer has a valid court order requiring an amount equal to such deduction to be paid by the Company to the Customer.
- 8.6 If the Customer fails to pay the Company any sum due pursuant to the Contract, the Company reserves the right to claim interest under the provisions of the Late Payment of Commercial Debts (Interest) Act 1998.

**9. QUALITY**

- 9.1 The Company warrants that (subject to the other provisions of these conditions) on delivery and for a period of 12 months from the date of delivery the Goods shall be of satisfactory quality within the meaning of the Sale of Goods Act 1979
- 9.2 The Company shall not be liable for a breach of the warranty in condition 9.1 unless:
- the Customer gives written notice of the defect to the Company, and, if the defect is as a result of damage in transit to the carrier, within 3 days of the time when the Customer discovers or ought to have discovered the defect; and
  - the Company is given a reasonable opportunity after receiving the notice of examining such Goods and the Customer (if asked to do so by the Company) returns such Goods to the Company's place of business at the Company's cost for the examination to take place there.
- 9.3 The Company shall not be liable for a breach of the warranty in condition 9.1 if:
- the Customer makes any further use of such Goods after giving such notice; or
  - the defect arises because the Customer failed to follow the Company's oral or written instructions as to the storage, installation, commissioning, use or maintenance of the Goods or (if there are none) good trade practice; or
  - the Customer alters or repairs such Goods without the written consent of the Company.
- 9.4 Subject to condition 9.2 and condition 9.3, if any of the Goods do not conform with the warranty in condition 9.1 the Company shall at its option repair or replace such Goods (or the defective part) or refund the price of such Goods at the pro rata Contract rate provided that, if the Company so requests, the Customer shall, at the Company's expense, return the Goods or the part of such Goods which is defective to the Company.
- 9.5 If the Company complies with condition 9.4 it shall have no further liability for a breach of the warranty in condition 9.1 in respect of such Goods.
- 9.6 Any Goods replaced shall belong to the Company and any repaired or replacement Goods shall be guaranteed on these terms for the unexpired portion of the 12 month period.
- 9.7 Under no circumstances will charges for any repair or remedial work, including labour cost or equipment hire, be accepted without prior written consent and agreement from Ansell.
- 10. LIMITATION OF LIABILITY**
- 10.1 All warranties, conditions and other terms implied by statute or common law (save for the conditions implied by section 12 of the Sale of Goods Act 1979) are, to the fullest extent permitted by law, excluded from the Contract.
- 10.2 Nothing in these conditions excludes or limits the liability of the Company:
- for death or personal injury caused by the Company's negligence; or
  - for any matter which it would be illegal for the Company to exclude or attempt to exclude its liability; or
  - for fraud or fraudulent misrepresentation.
- 10.3 Subject to condition 10.1:
- the Company's total liability in contract, tort (including negligence or breach of statutory duty), misrepresentation, restitution or otherwise, arising in connection with the performance or contemplated performance of the Contract shall be limited to the Contract price; and
  - the Company shall not be liable to the Customer for loss of profit, loss of business, or depletion of goodwill in each case whether direct, indirect or consequential, or any claims for consequential compensation whatsoever (howsoever caused) which arise out of or in connection with the Contract.
- 11. ASSIGNMENT**
- 11.1 The Company may assign the Contract or any part of it to any person, firm or company.
- 11.2 The Customer shall not be entitled to assign the Contract or any part of it without the prior written consent of the Company.
- 12. FORCE MAJEURE**
- The Company reserves the right to defer the date of delivery or to cancel the Contract or reduce the volume of the Goods ordered by the Customer (without liability to the Customer) if it is prevented from or delayed in the carrying on of its business due to circumstances beyond the reasonable control of the Company including, without limitation, acts of God, governmental actions, war or national emergency, acts of terrorism, protests, riot, civil commotion, fire, explosion, flood, epidemic, lock-outs, strikes or other labour disputes (whether or not relating to either party's workforce), or restraints or delays affecting carriers or inability or delay in obtaining supplies of adequate or suitable materials, provided that, if the event in question continues for a continuous period in excess of 90 days, the Customer shall be entitled to give notice in writing to the Company to terminate the Contract.
- 13. GENERAL**
- 13.1 Each right or remedy of the Company under the Contract is without prejudice to any other right or remedy of the Company whether under the Contract or not.
- 13.2 If any provision of the Contract is found by any court, tribunal or administrative body of competent jurisdiction to be wholly or partly illegal, invalid, void, voidable, unenforceable or unreasonable it shall to the extent of such illegality, invalidity, voidness, voidability, unenforceability or unreasonableness be deemed severable and the remaining provisions of the Contract and the remainder of such provision shall continue in full force and effect.
- 13.3 Failure or delay by the Company in enforcing or partially enforcing any provision of the Contract shall not be construed as a waiver of any of its rights under the Contract.

13.4 Any waiver by the Company of any breach of, or any default under, any provision of the Contract by the Customer shall not be deemed a waiver of any subsequent breach or default and shall in no way affect the other terms of the Contract.

13.5 The parties to the Contract do not intend that any term of the Contract shall be enforceable by virtue of the Contracts (Rights of Third Parties) Act 1999 by any person that is not a party to it.

13.6 The formation, existence, construction, performance, validity and all aspects of the Contract shall be governed by the law appropriate to the country of residence of the Ansell company supplying the goods and the parties submit to the exclusive jurisdiction of the relevant courts.

**14. COMMUNICATIONS**

14.1 All communications between the parties about the Contract shall be in writing and delivered by hand or sent by pre-paid first class post, sent by fax or Email:

- (In case of communications to the Company) to its registered office and copied (if different from the Company's principal place of business as shown on the invoice rendered by the Company for the Goods) to said principal place of business or such changed address as shall be notified to the Customer by the Company; or
  - (In the case of the communications to the Customer) to the registered office of the addressee (if it is a company) or (in any other case) to any address of the Customer set out in any document which forms part of the Contract or such other address as shall be notified to the Company by the Customer.
- 14.2 Communications shall be deemed to have been received:
- if sent by pre-paid first class post, two days (excluding Saturdays, Sundays and bank and public holidays) after posting (exclusive of the day of posting); or
  - if delivered by hand, on the day of delivery; or
  - if sent by fax on a working day prior to 4.00 pm, at the time of transmission and otherwise on the next working day.

**15. ORDER VALUE**

15.1 Please contact the Ansell Sales Office for value of carriage paid orders.

**16. PURCHASE ORDERS**

16.1 Written and priced orders will only be accepted.

**17. DIRECT DELIVERIES**

17.1 Ansell are unable to accept any liability for lost or misplaced goods once they have been delivered with a clear signature at a specified direct delivery address.

**18. GOODS FOR RETURN**

18.1 Under no circumstances may goods be returned without a documented authorisation number from Ansell sales office. Unauthorised returns will not be accepted. Goods will only be accepted for the stated reason.

18.2 The documented authorisation numbers from Ansell sales office will only be valid for 28 days after being issued and goods returned outside this period may be refused.

18.3 Ansell will make every effort to issue a credit note for returned goods within 28 days of receiving the goods. If a credit note has not been issued within this 28 day period it is the responsibility of the customer to investigate such outstanding credits with Ansell in a timely manner.

18.4 All faulty goods returned are inspected and tested. Any found to be in perfect working order will be returned and re-invoiced, together with any applicable carriage charges.

18.5 Goods purchased within a twelve week period and no longer required, might be accepted for return at the discretion of Ansell. Upon authorisation, it is the responsibility of the customer to return the consignment, ensuring that the goods are in full working order and in a re-saleable condition. Products and product boxes that are damaged (including transit damage), defaced or with broken seals will not be accepted for return and it is the responsibility of the customer to ensure compliance.

18.6 Products with remote or integral emergency cannot be accepted for return under any circumstances.

**19. PRODUCTS MADE TO ORDER**

19.1 Orders for specials ie variations to standard products or products not defined as stock items, are ordered and supplied on a strictly non-returnable basis.

19.2 Non-cancellable order basis. Under no circumstances will the company accept returns in full or partial quantities.

**20. SPECIFICATION**

20.1 It is the responsibility of the purchaser to ensure that any product selected is suitable and / or applicable for the intended installation.

**21. COPYRIGHT**

21.1 All products, names, drawings and descriptions may not be reproduced in any form whatsoever without prior written consent from Ansell.

**22. PROTECTION OF PERSONAL DATA**

22.1 The Company and the Customer undertake to comply with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and repealing Directive 95/46/EC (General Data Protection Regulation) OJ L 119/1, 4.5.2016 (and any successor legislation).

# Warranty Information

509

## WARRANTY AND PERIOD

Ansell Lighting warrants only to the original end user that the products and parts manufactured will be free from defects in material and workmanship for the warranty period. The warranty period is determined commencing upon date of invoice to the end user or, if the end user cannot provide proof of invoice, then the dispatch date from Ansell Lighting.

Emergency product warranty period will be determined solely by the battery warranty period (not the warranty period of any non-emergency equivalent). The battery warranty period is determined by the specific battery code, noted on all batteries.

LED warranty period is based on an average operating usage of eight hours per day and applies where failures exceed a component manufacturers expected failure rate and lumen depreciation.

## CLEARANCE PRODUCTS

Those products which appear in the clearance section of <https://ansellonline.com/> will automatically be subject to 12 months warranty, regardless of the previously advertised warranty period.

## PRODUCTS WITH BATTERIES

Ansell Lighting emphasises that the recommended minimum operating temperature for any product with batteries is 0°C, excluding our dedicated Cold Store products. Be advised that any products installed in ambient temperatures lower than 0°C will not be covered under warranty.

## ANSELL LIGHTING OBLIGATION UNDER WARRANTY

Ansell Lighting's sole obligation under the warranty, shall be to repair or provide replacement product(s) during the warranty period. Ansell Lighting does not assume responsibility for delays in replacement or repair of products or parts. Products and parts repaired or replaced by Ansell Lighting under warranty, shall be warranted for the balance of the original warranty period.

## DISCLAIMER OF ALL OTHER WARRANTIES

No other warranties, expressed or implied, are given, and Ansell Lighting expressly disclaims all other warranties, including and without limitation, the implied warranties of merchantability and fitness for purpose.

## LIMITATIONS

No salesperson, representative, distributor or agent of Ansell Lighting, is authorised to make any guarantee, warranty, or representation that contradicts the terms contained in this Limited Warranty. Any Waiver, alteration, addition, or modification to the warranties contained herein must be in writing and signed by an authorised representative of Ansell Lighting to be binding and enforceable. Ansell Lighting does not assume responsibility for any specific application to which any products or parts of products are applied including, but not limited to, compatibility with other products. Ansell Lighting will not accept any responsibility or warrant any product that has been tampered with or has been changed, altered or wrongly installed. All statements, technical information, or recommendations relating to the products or parts issued by Ansell Lighting are based upon tests believed to be reliable, but do not constitute a guarantee or warranty. Ansell Lighting shall not under any circumstances be liable to any party for loss of profits, loss of goodwill, or any other special, consequential, or incidental damages whatsoever, with respect to any claim in connection with products or parts manufactured by Ansell Lighting or products or parts used in any product or products manufactured by Ansell Lighting

## EXCLUSIONS TO THE WARRANTY

The limited warranty shall be null and void in the following circumstances :-

1. Modification or repair of any covered product or part by the installer, end user or any non-authorised Ansell Lighting service provider
2. Improper use or installation, failure to conduct regular maintenance or cleaning, or damage by accident or neglect, of any covered product or part by the end user or any third party. In particular, all AISI316L stainless steel products must be cleaned with the Ansell cleaning kit ASSCK every three months to keep the features of the product unaltered.
3. Failure by the installer, end user or any third party to exercise caution to protect any covered product or part from outside damage, adverse temperature (normal operating ambient temperature 0 - 25°C), humidity conditions, fluctuations in the electrical system or physical abuse as well as failure related to workmanship in the installation of the product or parts.
4. Ansell Lighting will not assume responsibility for corrosion or other resulting damage to products where they are installed in areas in which fertilizer or chemicals are present, either in the air or in the soil or where products are installed near to chemical plants etc., or areas with emissions of heavy polluted air.
5. Failure of supplied lamps: all lamps have a manufacturers average lamp life and can fail before or after the prescribed average. Lamp life is reduced by switching cycles, temperature and voltage fluctuations outside of their operational range.
6. It is essential that the battery packs within all emergency luminaires are replaced after a four year period. All emergency luminaires must be tested in accordance with BS EN 5266-8-2004. Increased frequency of emergency testing may result in the premature replacement of battery pack before the standard four year period. Batteries are supplied with a 24 month warranty only.

### **Important Information**

The information, technical specification and photography contained in this catalogue is representative of general models, correct at time of going to press. All dimensions and weight given are advisory and should be checked and confirmed prior to any crucial installation procedures such as ceiling cut-outs taking place. Whilst suggestions regarding luminaire applications are given, it is the responsibility of the installer to verify suitability.

Ansell Lighting reserves the right to make any modification necessary to parts or details without prior notice. The information contained in this publication does not form part of any contract with Ansell Lighting and any item supplied is done in full accordance of our Conditions of Sale (copy available on request).
